Authentication method setup

Add a second layer of security so only you can sign in to your account.

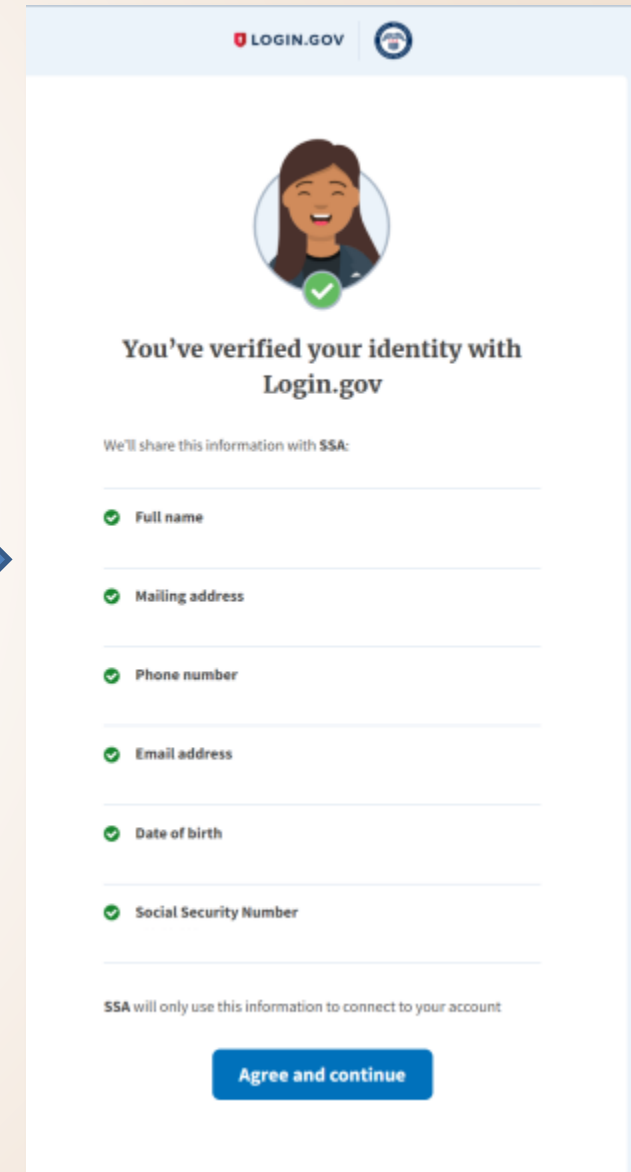

Keep this information safe. You will be locked out and have to create a new account if you lose your authentication method.

Select an option to secure your account:

- Security key**
Use a security key that you have. It's a physical device that you plug in or that is built in to your computer or phone (it often looks like a USB flash drive). Recommended because it is more phishing resistant. **MORE SECURE**
- Government employee ID**
Insert your government or military PIN or CAC card and enter your PIN. **MORE SECURE**
- Authentication application**
Get codes from an app on your phone, computer, or tablet. Recommended because it is harder to intercept than texts or phone calls. **SECURE**
- Text or Voice Message**
Get security codes by text message (SMS) or phone call. Please do not use web-based (VoIP) phone services. **LESS SECURE**
- Backup codes**
We'll give you 10 codes. You can use backup codes as your only authentication method, but it is the least recommended method since notes can get lost. Keep them in a safe place. **LEAST SECURE**

Terms of Service

You must be able to verify some information about yourself and:

- Have a valid email address;
- Have a Social Security number;
- Have a U.S. mailing address; and
- Be at least 18 years of age.

You may only create an account using your own personal information. Do not create an account using another person's information or identity, even if you have that person's written permission or are that person's representative payee or appointed representative.

For example, you cannot create an account for another person:

- With whom you have a business relationship;
- For whom you are a representative payee; or
- For whom you are an appointed representative.

You may obtain assistance with creating your account from someone you trust. However, by sharing your personal information with the person assisting you, you accept the risk that the person assisting you may misuse your personal information. A third party, including a representative payee or an appointed representative, may not create an account on your behalf, but you may ask your representative payee or appointed representative to assist you to create your account if you trust the individual.

In order to protect your privacy and prevent fraud, do not share your username and password.

What will we do with your information?

We use the information you give us to verify your identity against our records. We also use an external Identity Services Provider to verify your information against their records. They keep your information only for the period of time permitted by federal laws, regulations, or guidelines.

When you make a verification request to establish your account, our Identity Services Provider may use information from your credit report to help verify your identity. As a result of using information from your credit report, you may see a "soft" inquiry entry on your credit report with the Identity Services Provider, indicating that the Social Security Administration made an inquiry at your request and the date of that request. Soft inquiries do not affect your credit score, and you do not incur any charges related to them. Soft inquiries are displayed in the version of the credit report provided to a consumer and are not reported to lenders. Soft inquiries will not appear on your credit report from other providers. Soft inquiries are generally removed from your credit report after 12 months. Once you have registered for an online account, you will not generate additional soft inquiries by logging in to access our services.

You understand that by checking "I agree to the Terms of Services", you are providing "written instructions" to SSA under the Fair Credit Reporting Act authorizing SSA to obtain information from your personal credit profile or other information from Experian. You authorize SSA to obtain such information solely to provide you access to personally identifiable information and prevent fraudulent transactions.

SSA may need to verify mobile phone data through an external service provided by Boku, Inc. You authorize your wireless carrier to use or disclose information about your account and your wireless device, if available, to SSA or its service provider for the duration of your business relationship, solely to help them identify you or your wireless device and to prevent fraud. See our Privacy Policy for how we treat your data.

What happens if you provide false information or misuse this service?

You may be subject to criminal or civil penalties, or both, if you provide false or misleading statements to sign in or create an account or engage in unauthorized use of this service.

Who is responsible if the device you are using is not adequately safeguarded?

You accept that the responsibility to properly protect any information provided to you by Social Security is yours and that you are the responsible party should any information on or from your computer or other device be improperly disclosed. You agree that Social Security is not responsible for the improper disclosure of any information that Social Security has provided to you, whether due to your own negligence or the wrongful acts of others.

Social Security is Going "Green"

When you create a *my* Social Security account, you will no longer receive a paper Social Security Statement in the mail. You will, however, receive an email reminder — which contains no personal information — approximately three months before your birthday, to remind you to review your Statement online.

If you need a Statement by mail, please follow these instructions.

With *my* Social Security account, you can immediately view, download, or print your Statement. Your online Statement contains the most up-to-date information in our records about your earnings and benefits.

Social Security Number Verification Service (SSNVS)

Do you want to verify Social Security Numbers Online?

Requesting access for the Social Security Number Verification Service will allow you to complete an online form or to submit files to request verification of names and Social Security Numbers of employees of the company for which you work or of the company that has hired you to perform this service.

 **Access to the name/number verification service involves a more rigorous process and requires pre-authorization from your employer. If access is requested, your employer will be notified via first class mail, usually within 2 weeks. The notice will include an activation code which is needed to activate your request.**
