**The Proposed Amendment**

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Chapter I of Title 14, Code of Federal Regulations, as follows:

**PART 25—AIRWORTHINESS STANDARDS: TRANSPORT CATEGORY AIRPLANES**

1. The authority citation for part 25 continues to read as follows:

**Authority:** 49 U.S.C. 106(g), 40113, 44701, 44702 and 44704.

2. Revise § 25.1322 to read as follows:

**§ 25.1322 Flightcrew alerting.**

(a) Flightcrew alerts must:

(1) For warning and caution alerts, provide timely attention-getting cues through at least two different senses by a combination of aural, visual, or tactile indications.

(2) Provide the flightcrew with the information needed to identify the alert and determine the correct action, if any.

(3) Be readily and easily detectable and intelligible by the flightcrew under all foreseeable operating conditions, including conditions where multiple alerts are provided.

(b) Alerts must conform to the following prioritization hierarchy based upon urgency of flightcrew awareness and urgency of flightcrew response.

(1) Warning: For conditions that require immediate flightcrew awareness and immediate flightcrew response.

(2) Caution: For conditions that require immediate flightcrew awareness and less urgent flightcrew response.

(3) Advisory: For conditions that require flightcrew awareness and may require subsequent flightcrew response.

(c) Alert presentation means must be designed to minimize nuisance effects. In particular a flightcrew alerting system must:

(1) Permit each occurrence of attention getting cues to be acknowledged and suppressed unless they are otherwise required to be continuous.

(2) Prevent the presentation of an alert that is inappropriate or unnecessary.

(3) Remove the presentation of the alert when the condition no longer exists.

(4) Provide a means to suppress an attention getting component of an alert caused by a failure of the alerting system that interferes with the flightcrew's ability to safely operate the airplane. This means must not be

readily available to the flight crew such that it could be operated inadvertently, or by habitual reflexive action. In this case, there must be a clear and unmistakable announcement to the flight crew that the alert has been suppressed.

(d) Visual alert indications that are shown on multicolor displays must conform to the following color convention:

(1) Red for warning alert indications.

(2) Amber or yellow for caution alert indications.

(3) Any color except red, amber, yellow, or green for advisory alert indications.

(e) Visual alert indications shown on monochromatic displays must use display coding techniques such that the flightcrew can clearly distinguish between warning, caution, and advisory alert categories.

(f) The colors red, amber, or yellow are normally reserved for alerting functions. The use of these colors for functions other than flightcrew alerting must be limited and must not adversely affect flightcrew alerting.

Issued in Washington, DC, on July 2, 2009.

**Compassionate Allowances for Early-Onset Alzheimer's Disease and Related Dementias; Office of the Commissioner, Hearing**

**AGENCY:** Social Security Administration (SSA).

**ACTION:** Announcement of public hearing.

**SUMMARY:** We are considering ways to quickly identify diseases and other serious medical conditions that obviously meet the definition of disability under the Social Security Act (Act) and can be identified with minimal objective medical information. We are calling this method "Compassionate Allowances." We will hold a hearing on July 29, 2009, to obtain information about possible methods of identifying adults with Early-Onset Alzheimer's Disease and related dementias and the advisability of implementing compassionate allowances for people with these diseases.

**DATES:** This hearing will be held on July 29, 2009, between 8:30 a.m. and 5 p.m., Central Daylight Time (CDT), in Chicago, IL. The hearing will be held at the Drake Hotel, 140 East Walton Place, Chicago, IL 60611. While the public is welcome to attend the hearing, only invited witnesses will present testimony.

You may also watch the proceedings live via Webcast beginning at 9 a.m. CDT. You may access the Webcast line for the hearing on the Social Security Administration Web site at [http://www.socialsecurity.gov/compassionate\\_allowances/hearings0709.htm](http://www.socialsecurity.gov/compassionate_allowances/hearings0709.htm).

**SUPPLEMENTARY INFORMATION:****Background**

Under titles II and XVI of the Act, we pay benefits to claimants who meet our rules for entitlement and have medically determinable physical or mental impairments that are severe enough to meet the definition of disability in the Act. The rules for determining disability can be very complicated, but some claimants have such serious medical conditions that their conditions obviously meet our disability standards. To better address the needs of these claimants, we have implemented the Compassionate Allowance initiative to quickly identify diseases and other medical conditions that invariably qualify under our Listing of Impairments based on minimal objective medical information.

**Will We Respond to Your Comments?**

We will carefully consider your comments, although we will not respond directly to comments sent in response to this notice or the hearing.

**Additional Hearings**

We have held three hearings since December 2007. These hearings were on rare diseases, cancers, and traumatic brain injury and stroke. You may access the transcripts of the hearings at <http://www.socialsecurity.gov/compassionateallowances>. We plan to hold additional hearings on other conditions and will announce those hearings later with notices in the **Federal Register**.
