

Summary Measures and Graphs

Category of Change: Level of Monthly Benefits

Proposed Provision: Progressive price indexing (30th percentile) of PIA formula factors beginning with individuals newly eligible for OASDI benefits in 2019: Create a new bend point at the 30th percentile of the AIME distribution of newly retired workers. Maintain current-law benefits for earners at the 30th percentile and below. Reduce the 32 and 15 percent formula factors above the 30th percentile such that the initial benefit for a worker with AIME equal to the taxable maximum grows by inflation rather than the growth in the SSA average wage index.
