a. Averages are not obtained simply by dividing the total dollars by the number of recipients. Averages exclude payments made in the current month for prior month eligibility, such as back pay for new awards. This is done to avoid distortion of the averages by large retroactive payments.

SOURCES: Disabled Beneficiaries and Dependents Master Beneficiary Record (DBADMBR) file and the Revised Management Information Counts System (REMICS).

NOTES: Social Security counts include disabled workers, disabled widow(er)s, and disabled adult children. SSI counts include recipients of federal SSI, federally administered state supplementation, or both. Social Security beneficiaries who are entitled to both a primary and a secondary benefit (dual entitlement) are counted only once in this table.
