SOURCE: Department of the Treasury.

NOTE: Totals do not necessarily equal the sum of rounded components.

- a. Employment taxes depend on tax rates and, for the Old-Age and Survivors Insurance and Disability Insurance Trust Funds, wage bases (because of taxable maximums). The taxable maximum for Medicare Hospital Insurance was eliminated in 1994. Employer and employee contributions differ by estimated amounts of employee tax overpayments and by employee tax on tips.
- b. Between -\$500,000 and \$500,000.
- c. Beginning in July 1973, aged ineligible may voluntarily enroll for HI.
- d. Includes premiums paid on behalf of eligibles by state governments under "buy-in" arrangements.

SOURCES: Social Security Administration, Master Beneficiary Record and Supplemental Security Record, 100 percent data.

NOTE: Beginning with data for 2011, OASDI beneficiaries who are entitled to both a primary benefit (based on one's own earnings record) and a secondary benefit (based on a spouse's earnings record) are counted only once in this table.

a. Includes persons receiving Old-Age, Survivors, and Disability Insurance (OASDI), SSI, or both.

b. The number of OASDI disabled adult child beneficiaries aged 18–64 also receiving SSI was estimated on the basis of the number of such beneficiaries aged 18 or older for the same year and on the comparative size of the two groups at the end of 1988.

c. December data for OASDI disabled beneficiaries also receiving SSI were not available. Instead, the average of the September 1989 and March 1990 numbers was used.

For certain race categories, some of the change in the number of beneficiaries and recipients relative to the numbers shown in previous editions of this table may be attributable to changes in the Census Bureau race category definitions.

For a discussion of standard errors of estimated numbers and percentages, see Census Bureau, *Current Population Reports*, Series P-60.

Totals do not necessarily equal the sum of rounded components.

"In combination" means in combination with one or more other races.

OASDI = Old-Age, Survivors, and Disability Insurance.

a. The sum of the five race groups adds to more than the total because individuals may report more than one race.

b. Average benefits are not shown for fewer than 75,000 weighted cases.
