SOURCE: Social Security Administration, Master Beneficiary Record, 100 percent data.

NOTES: Benefits awarded before the December cost-of-living increase are converted to the December rates before percentages are computed.

Because of differences in data sources and calculation methods, statistics reported in this table may differ from those reported by the Office of the Chief Actuary.

Totals do not necessarily equal the sum of rounded components.

SOURCE: Social Security Administration, Master Beneficiary Record, 100 percent data.

NOTES: Primary insurance amounts awarded before the December cost-of-living increase are converted to the December rates before percentages are computed.

Because of differences in data sources and calculation methods, statistics reported in this table may differ from those reported by the Office of the Chief Actuary.

Totals do not necessarily equal the sum of rounded components.

SOURCE: Social Security Administration, Master Beneficiary Record. Data for 1985–2001 are based on a 1 percent sample. All other years are 100 percent data.

NOTES: Percentage distributions for 2003–2009 differ slightly from those in prior editions of this table because of changes in the methodology of calculating age (see footnote b) and in the presentation of legislated FRA (see footnotes c–g).

Because of differences in data sources and calculation methods, statistics reported in this table may differ from those reported by the Office of the Chief Actuary.

Totals do not necessarily equal the sum of rounded components.

FRA = full retirement age; ... = not applicable.

(Continued)

**Table 6.B5—Number and average age of retired-worker awardees, and percentage distribution by age:
By sex and year of award action, selected years 1940–2022—Continued**

- a. Reflects the date the award action was posted on the Master Beneficiary Record. Entitlement can be retroactive and thus precede the date of award. For data by year of entitlement, see table 6.B5.1.
- b. Age on birthday in year of award for 1940–1980. Age in month of award for 1985–2002. Age in month of entitlement for 2003 and later. (In previous editions of this table, the transition from age in month of award to age in month of entitlement did not take effect until 2006.)
- c. Workers entitled in the period between attainment of age 65 and the month prior to attaining FRA.
- d. FRA is 65 for workers attaining age 65 before 2003. It increases in 2-month increments for workers attaining age 65 in each of the years 2003 through 2008. It is 66 for workers attaining age 65 in the years 2008 through 2019. It again increases in 2-month increments for workers attaining age 65 in the years 2020 through 2025. It is 67 for workers attaining age 65 in 2025 or later.
- e. For 1940–2002, includes workers entitled in the period between attainment of age 65 and the month prior to attaining age 66. Beginning with 2003, includes workers entitled only in the month they attain FRA.
- f. Disabled-worker benefit automatically converts to a retired-worker benefit in the month the worker attains FRA.
- g. For 1940–2002, includes workers entitled in the period between attainment of age 66 and the month prior to attaining age 70. Beginning with 2003, includes workers entitled in the period between the month after attaining FRA and the month prior to attaining age 70.
- h. In response to a March 1997 audit by the Social Security Administration (SSA) Office of the Inspector General, notifications of eligibility for higher benefits were mailed to approximately 200,000 surviving spouses, resulting in higher numbers for 1997. SSA subsequently initiated the Widow(er)'s Insurance Benefits/Retirement Insurance Benefits (WIB/RIB) outreach program to identify and notify surviving spouses who are eligible for higher retirement benefits at FRA and age 70.

SOURCE: Social Security Administration, Master Beneficiary Record, 100 percent data.

NOTES: The data in this table differ from those in table 6.B5 because awards are summarized here by the year in which entitlement began rather than by the year the award action was posted on the Master Beneficiary Record. The year of entitlement often precedes the year of action because of retroactive entitlements, delayed award actions, and other reasons. Because entitlements can be awarded retroactively, data for current and prior years are subject to revision with each annual update of this table.

Because of differences in data sources and calculation methods, statistics reported in this table may differ from those reported by the Office of the Chief Actuary.

Totals do not necessarily equal the sum of rounded components.

FRA = full retirement age; ... = not applicable.

a. FRA is 65 for workers attaining age 65 before 2003. It increases in 2-month increments for workers attaining age 65 in each of the years 2003 through 2008. It is 66 for workers attaining age 65 in the years 2008 through 2019. It again increases in 2-month increments for workers attaining age 65 in the years 2020 through 2025. It is 67 for workers attaining age 65 in 2025 or later.

b. Disabled-worker benefit automatically converts to a retired-worker benefit in the month the worker attains FRA.
