April 4, 2016

The Honorable Jim McCrery and The Honorable Earl Pomeroy, Co-chairs
SSDI Solutions Initiative

Dear Mr. McCrery and Mr. Pomeroy:

I am writing in response to the request for estimates of the financial effects on Social Security of a number of potential proposals that may be considered for addressing financial shortfalls of the Social Security Disability Insurance (DI) program. All estimates provided in the enclosed table are based on the intermediate assumptions of the 2015 Trustees report. We have enjoyed working with Marc Goldwein and Ed Lorenzen and others of the staff of the Committee for a Responsible Federal Budget (CRFB) on these proposals for inclusion in the SSDI Solutions Initiative report. I have also personally enjoyed working with you both as a member of the Advisory Council for this Initiative and as the Chief Actuary during years you were both in Congress on the Ways and Means Committee addressing Social Security issues.

Given the breadth of the proposals addressed in the attached table, we have involved almost every member of our Office of the Chief Actuary in developing the specifications and the estimates for them. Please note that due to having many competing work loads, and the number of proposals included here, many of these estimates represent preliminary estimates that, given more time and careful focus, would be done in more detail with possibly somewhat different results. However, for the purpose of gaining an understanding of the order of magnitude of the effects of these proposals, we believe this table will be useful to you and the readers of the SSDI Solutions Initiative report. While most of our office worked on these proposals, principal contributors include Chris Chaplain, Mary Kemp, Jacqueline Walsh, Dan Nickerson, Michael Clingman, William Jimenez, Kyle Burkhalter, Eli Donkar, and Karen Glenn.

We look forward to response by policymakers and the public to your Initiative report, and to continuing to work with you and others to evolve and strengthen the Social Security program in the future. Please let us know if we can be of assistance in any way.

Sincerely,

Stephen C. Goss
Chief Actuary

cc: Marc Goldwein and Ed Lorenzen
Enclosure
### SSDI Reform Options for "SSDI Solutions Initiative"

**PRELIMINARY Estimates**

All estimates based on intermediate assumptions of 2015 Trustees Report

(b) Effect is less than 0.005 percent of payroll.

<table>
<thead>
<tr>

“Adjust all civil monetary penalty maximums for inflation by increasing them w/ price growth from the last time each was adjusted and indexing them annually going forward; create a new specific felony for conspiracy to commit Social Security fraud, punishable by up to 5 years in prison, fines generally up to $250,000, or both; Increases the maximum Civil Monetary Penalty (CMP) that the SSA can levy against individuals in a position of trust from $5,000 to $7,500 for each false statement, representation, conversion, or omission the individual makes or causes to be made and increase the maximum felony penalty from 5 to 10 years; Establishes a new CMP, up to $7,500, for claimant representatives who knowingly charge or collect from claimants fees in excess of allowable amounts. Representatives who do so are also subject to an assessment of up to twice the amount of benefits received.

**Require the IG to increase number of CDI units to 54 (one in each state and territory) by 2016, provide mandatory CDI funding of $50 million in 2016 and index to benefit costs.

**Enact Section 102, 103, and Title II of the "Stop Disability Fraud Act" (http://waysandmeans.house.gov/uploadedfiles/stop_disability_fraud_act_of_2014_provisions.pdf). Clarify in the Social Security Act that all evidence that is relevant to a determination of whether or not a claimant is disabled must be submitted to an ALJ, whether unfavorable or favorable. Require claimant and/or representative to certify prior to hearing that all known relevant medical evidence has been submitted to the ALJ. Make clear that any violation of this provision is subject to the civil (fine and assessment of benefits) and criminal (up to 5 years imprisonment) penalties prescribed in the Social Security Act, 42 U.S.C. §§ 1320a-8 and 408 for omission of material facts. Further clarify the Social Security Act to clearly include loss of privilege to practice before SSA for claimant representatives found to have violated this provision. Permit ALJs to request SVTs and institute training for reading, interpreting and applying the test results.

***Create staff attorney positions that will immediately be assigned case files from DDS appeals and can fast-track worthy cases, gather evidence, communicate with claimants or their representatives, ensure that case files are complete before hearing and request continuances of the hearing date, if necessary. The staff attorney will also appear in the hearing on behalf of the government and be permitted to cross-examine the witnesses. To avoid higher costs, also revise the representative payment rules to make clear that the hearing before an ALJ is not subject to the Equal Access to Justice Act, which prescribes higher fees for a victorious representative in an adversarial setting such as federal court.

Office of the Chief Actuary, SSA  April 4, 2016
