

Summary Measures and Graphs

Category of Change: Level of Monthly Benefits

Proposed Provision: B7.10. Replace the current-law WEP with a new calculation for most OASI and DI benefits based on covered and non-covered earnings, phased in for beneficiaries becoming newly eligible in 2024 through 2033. For this new approach, compute a PIA based on all past earnings (covered and non-covered), and multiply by the "non-covered earnings ratio." This ratio is equal to the current-law concept of the average indexed monthly earnings computed without non-covered earnings divided by a modified average indexed monthly earnings that includes both covered and non-covered earnings in our records.

Current law [percent of payroll]		Change from current law [percent of payroll]		Shortfall eliminated	
Long-range actuarial balance	Annual balance in 75th year	Long-range actuarial balance	Annual balance in 75th year	Long-range actuarial balance	Annual balance in 75th year
-2.83	-4.48	0.03	0.06	1%	1%
