Title XVI of the Social Security Act established a Supplemental Security Income (SSI) program to provide monthly cash benefits as a federally guaranteed minimum income for low-income individuals who are aged, blind, or disabled. A portion of these funds may be used to fund evaluation of research projects, such as the Promoting Readiness of Minors in SSI (PROMISE) pilot, which would improve the outcomes of children receiving SSI and their families.

The Budget includes a re-proposal to conform the treatment of state and local government Earned Income Tax Credits (EITC) and Child Tax Credits (CTC) to be consistent with the treatment of the Federal EITC and CTC for purposes of determining eligibility for the Supplemental Security Income (SSI) program. Currently, the Federal EITC and CTC credits are excluded from SSI income and resource tests. However, state and local versions of these credits are not excluded, resulting in the reduction or loss of SSI benefits for those receiving the credits.

The Budget will re-propose the development of a process to collect workers' compensation (WC) information in a timely manner from states and private insurers in order to correctly offset DI benefits and reduce SSI payments.

The Budget also includes a re-proposal that would increase the SSI eligibility period for refugees, asylees, and other non-citizens in refugee-like immigration statuses (i.e., humanitarian immigrants) from a maximum of seven years to a maximum of nine years during fiscal years (FY) 2017 and 2018. Individuals whose benefits expired solely due to the seven-year time period would be eligible for up to 24 months of extended benefits paid prospectively until the conclusion of the nine-year period or the end of FY 2018, if earlier.

The Budget also re-proposes to hold fraud facilitators liable for overpayments by allowing SSA to recover the overpayment from a third party if the third party was responsible for making fraudulent statements or providing false evidence that allowed the beneficiary to receive payments that should not have been paid.

The Budget will re-propose to restructure the Federal Wage Reporting process by moving from annual to quarterly wage reporting. This proposal will enhance tax administration and improve SSI program integrity.

The Budget will propose to allow SSA to conduct data matches with private commercial databases that maintain data on ownership of real property (i.e., land and buildings), which can be a countable resource for SSI purposes. The proposal would authorize SSA to use that information to automatically increase or decrease benefits accordingly, after proper notification. New beneficiaries would be required to consent to allow SSA to access these databases as a condition of benefit receipt. All other current due process and appeal rights would be preserved.

The Budget will also repropose allowing the use of Customs and Border Patrol Entry/Exit data to prevent improper payments.

SUPPLEMENTAL SECURITY INCOME PROGRAM—Continued

The Budget will propose the usage of all collection tools to recover funds in certain scenarios, such as when someone improperly cashes a beneficiary's check.

The Budget will provide for the exclusion of SSA debts from discharge in bankruptcy proceedings.

The Budget will also propose conducting a continuing disability review when we believe that fraud or similar fault was involved in a prior continuing disability review.

The Budget includes Child Support Enforcement proposals that increase collections and expand distribution, which in turn reduce low-income families' reliance on SSI and result in savings to the program.

Finally, the Budget proposes the elimination of dedicated accounts, which are now required when past-due benefits greater than six times the maximum monthly benefit will be paid.

Public Law 111-5 provided funding to process disability and retirement work, to replace the National Computer Center, and to administer \$250 economic recovery payments to eligible Social Security and Supplemental Security Income beneficiaries. The funds for administering the \$250 economic recovery payments were obligated by the end of the first quarter of 2011, as payments ended on December 31, 2010. All obligations since 2012 are for the replacement of the National Computer Center. SSA received a Presidential Waiver on December 28, 2012, allowing the agency to retain and continue to obligate funds appropriated for expenses of the replacement of the National Computer Center.

The Budget includes a re-proposal to terminate benefits for a stepchild in the same month as benefits are terminated for a parent upon the divorce of the parent. This change would correct a drafting error in the original legislation in order to conform the treatment of stepchild benefits to those of the parent's benefits.

The Budget will also re-propose using the Death Master File to prevent improper payments to deceased individuals by providing the full list to the Do Not Pay system at the Department of Treasury.

The Budget will re-propose to restructure the Federal Wage Reporting process by moving from annual to quarterly wage reporting. This proposal will enhance tax administration and improve OASI program integrity.

The Budget will also repropose using Customs and Border Patrol Entry/Exit data to prevent improper payments.

The Budget will propose the usage of all collection tools to recover funds in certain scenarios, such as when someone improperly cashes a beneficiary's check.

The Budget will provide for the exclusion of SSA debts from discharge in bankruptcy proceedings.

The Budget will also propose increasing the minimum monthly overpayment collection from \$10 a month to 10% of the overpayment amount.

The Budget also repropose to hold fraud facilitators liable for overpayments by allowing SSA to recover the overpayment from a third party if the third party was responsible for making fraudulent statements or providing false evidence that allowed the beneficiary to receive payments that should not have been paid.

Finally, the Budget includes a revised proposal to develop mechanisms for timely and accurate collection of Windfall Elimination Provision/Government Pension Offset (WEP/GPO) data from States and localities for use in payment calculations. In addition, it proposes to transition to an alternative approach which would adjust Social Security benefits based on the extent to which workers have non-covered earnings. SSA now collects data on non-covered employment and could calculate the offset without any disclosure from the individual.

The Budget includes a re-proposal to terminate benefits for a stepchild in the same month as benefits are terminated for a parent upon the divorce of the parent. This change would correct a drafting error in the original legislation in order to conform the treatment of stepchild benefits to those of the parent's benefits.

The Budget will also propose increasing the minimum monthly overpayment collection from \$10 a month to 10% of the overpayment amount.

The Budget will re-propose the development of a process to collect workers' compensation (WC) information in a timely manner from states and private insurers in order to correctly offset DI benefits and reduce SSI payments.

The Budget also proposes to hold fraud facilitators liable for overpayments by allowing SSA to recover the overpayment from a third party if the third party was responsible for making fraudulent statements or providing false evidence that allowed the beneficiary to receive payments that should not have been paid.

The Budget will re-propose to restructure the Federal Wage Reporting process by moving from annual to quarterly wage reporting. This proposal will enhance tax administration and improve DI improper payments.

The Budget will also re-propose using Customs and Border Patrol Entry/Exit data to prevent improper payments.

The Budget will propose the usage of all collection tools to recover funds in certain scenarios, such as when someone improperly cashes a beneficiary's check.

The Budget will also propose conducting a continuing disability review when we believe that fraud or similar fault was involved in a prior continuing disability review.

The Budget will provide for the exclusion of SSA debts from discharge in bankruptcy proceedings.

Finally, the Budget includes a revised proposal to develop mechanisms for timely and accurate collection of Windfall Elimination Provision/Government Pension Offset (WEP/GPO) data from States and localities for use in payment calculations. In addition, it proposes to transition to an al-

ternative approach which would adjust Social Security benefits based on the extent to which workers have non-covered earnings. SSA now collects data on non-covered employment and could calculate the offset without any disclosure from the individual.

The Limitation on Administrative Expenses account provides resources for Social Security to administer the Old-Age and Survivors Insurance (OASI) and Disability Insurance (DI) programs, the Supplemental Security Income (SSI) program, and certain health insurance functions for the aged and disabled. Public Law 114-10 prohibits displaying, coding, or embedding Social Security numbers on a beneficiary's Medicare card. In order to fund implementation costs to comply with this provision, SSA will receive \$98 million funded incrementally from FY 2015 to FY 2018.

The request in 2017 for program integrity activities builds on SSA's success in reducing program costs by ensuring that only individuals still eligible for benefits continue to receive them. The agency uses continuing disability reviews (CDRs) to determine whether an individual continues to qualify for DI and/or the SSI program. SSA estimates that CDRs conducted in 2017 will yield a return on investment (ROI) of about \$8 on average in net Federal program savings over 10 years per \$1 budgeted for dedicated program integrity funding, including OASDI, SSI, Medicare and Medicaid program effects. Similarly, SSA estimates indicate that non-medical redeterminations conducted in 2017 will yield a ROI of about \$3 on average of net Federal program savings over 10 years per \$1 budgeted for dedicated program integrity funding, including SSI and Medicaid program effects.

The Balanced Budget and Emergency Deficit Control Act (BBEDCA) of 1985, as amended by the Bipartisan Budget Act of 2015 (BBA), enacted adjustments to the discretionary spending limits in the Act for 2017 through 2021 for administrative program integrity activities at the Social Security Administration. For the Social Security Administration, BBEDCA authorizes a \$1,546 million cap adjustment for 2017. To ensure full funding of the cost increases, this cap adjustment is permissible only if the base level for CDRs and SSI redeterminations is funded at \$273 million. The BBA

also expanded the uses of cap adjustment funds to include cooperative disability investigation units, and special attorneys for fraud prosecutions. SSA will conduct 1,100,000 full medical CDRs and approximately 2.8 million SSI redeterminations of eligibility in 2017. With enactment of the new cap adjustment amounts in the BBA of 2015, full funding of the cap amounts is estimated to eliminate SSA's backlog of CDRs by the end of 2019 and prevent a new backlog from developing during the budget window. See additional discussion in the Budget Process chapter in the Analytical Perspectives volume.

The Budget includes eight proposals that will strengthen the integrity and administration of Social Security programs: 1. The Administration is including a request to restructure the Federal Wage Reporting process by moving from annual to quarterly wage reporting. This proposal will enhance tax administration and improve program integrity for a range of programs. 2. In addition, the Budget includes a re-proposal to develop a mechanism for timely and accurate collection of workers' compensation data for use in payment calculations. This mechanism will improve payment accuracy. 3. The Budget also includes a re-proposal to amend the Internal Revenue Code to lower the employer electronic wage reporting threshold from 250 to 5 employees over three years. 4. The Budget will also re-propose using Customs and Border Patrol Entry/Exit data to prevent improper payments. 5. The Budget also proposes to hold fraud facilitators liable for overpayments by allowing SSA to recover the overpayment from a third party if the third party was responsible for making fraudulent statements or providing false evidence that allowed the beneficiary to receive payments that should not have been paid. 6. The Budget includes a proposal to provide a dedicated source of mandatory funding for SSA to modernize its information technology beginning in FY 2018. 7. The Budget includes a proposal to create and fully fund an Interagency Workforce Council. 8. Finally, the Budget includes a revised proposal to develop mechanisms for timely and accurate collection of Windfall Elimination Provision/Government Pension Offset (WEP/GPO) data from States and localities for use in payment calculations. In addition, it proposes to transition to an alternative approach which would adjust Social Security benefits based on the extent to which workers have non-covered earnings. SSA now collects data on non-covered employment and could calculate the offset without any disclosure from the individual.
