

A photograph of a man with dark hair, wearing a dark green t-shirt, holding a prosthetic arm. The prosthetic is a myoelectric hand with a hook grip. The background is a plain, light color.

Disability is
unpredictable and
can happen to
anyone at any age.

Amputee & Post-Traumatic Stress Disorder

More than one in four 20-year-olds will become disabled before reaching retirement age

and will need Social Security disability payments for income support. When illness or injury robs an individual of the ability to work, our benefits can provide a critical source of financial support.
