A20. The letter from Social Security said you were chosen from a list of all adults who receive or used to receive Social Security benefits. It said someone from Mathematica would call to ask you to take part in this survey. I work for Mathematica Policy Research, a well-known research company based in Princeton, New Jersey. We were hired by Social Security to conduct this survey. The National Beneficiary Survey asks about your health, daily activities, and any jobs you may have. It also asks about Social Security programs or services you may use. The letter included the Privacy Act statement. It said that taking part in the survey is your choice and that your benefits will not be affected by your decision to answer the survey questions. It also said that the answers you give will be used only for research purposes to improve Social Security programs. If you get tired or need a break at any time, please tell me, and we will call back later to finish. This interview may be recorded for quality assurance. Let’s start now.

PROBE (PREPAY=1): Social Security sent a letter with a $5 gift card as a thank you. We will send you a $15 gift card after you complete the survey.

Let’s try that again. Taking part in the survey is completely voluntary. Completely voluntary means you can choose whether or not to take part. If you decide to take part, you can refuse to answer any questions you do not like. You can also stop the interview at any time. Whether you choose to take part or not, (NAME’s) disability benefits will not be affected in any way. When I say your taking part is completely voluntary, what does that mean to you?

C_B7. There are a number of special work programs available to people with disabilities. Was {your/NAME’s} job part of a sheltered workshop program, transitional employment program, the Business Enterprise Program for the blind, or a supported employment program?

PROBE: A sheltered workshop is a program that provides employment with subsidized wages (or special wages that would not be available in a regular job) for people with disabilities. A transitional employment program allows workers with disabilities to work at reduced levels while they ease back into the workplace.

The Business Enterprise Program for the blind offers legally blind persons the opportunity to own their own businesses. Supported employment programs provide job coaches or other on-the-job supports to help individuals with disabilities get and keep jobs.

M10a. Thank you very much for taking part in this survey. Because people like you are such a valued part of what we do, I’d like you to think about the survey you just participated in. On a scale from 1 to 10 where one means ‘it was not a good use of time’ and ten means “it was a good use of time,” which number between 1 and 10 best describes how you feel about your experience today?
