Why You Are Getting This Letter

You reported **X#** employee names and Social Security numbers (SSNs) on the Wage and Tax Statements (Forms W-2) for tax year **xxxx** that do not match our records. There are a number of reasons why reported names and SSNs may not agree with our records, such as typographical errors, unreported name changes, and inaccurate or incomplete employer records. However, when the information reported does not match our records, we cannot credit employees' earnings to their Social Security records. Accurate earnings records are important because these records can determine if someone is entitled to Social Security retirement, disability, and survivors benefits, and how much he or she can receive.

This letter provides useful information about *free* online wage reporting tools, including how to view and correct name and SSN mismatches.

IMPORTANT: This letter does not imply that you or your employee intentionally gave the government wrong information about the employee's name or SSN. This letter does not address your employee's work authorization or immigration status.

Do not take adverse action against an employee, such as laying off, suspending, firing, or discriminating against that individual, just because this letter identifies a mismatch between his or her SSN or name as reported to us. Those actions could violate state or federal law and subject you to legal consequences.

SSA will not supply the entire nine-digit SSN

SSA does not mail lists of the name/SSN mismatches, nor do we provide the information by telephone. In SSA's *free* Business Services Online (BSO), SSA will show the name and only the last four (4) digits of the SSN. Please see the attachment to learn how to register for and use BSO.
