II. How to Make a FOIA Request

B. SSA will try to furnish information as quickly as possible. However, it may take one month or more to locate, retrieve, and review many records. Complex requests and requests for numerous records may take longer.

C. We generally do not disclose information about living individuals without their written consent, as this would be a clearly unwarranted invasion of personal privacy. 5 U.S.C. 552(b)(6).

We do not disclose tax information about third parties obtained by SSA from the Internal Revenue Service (IRS), under 5 U.S.C. 552(b)(3).

Depending upon the nature of the document, SSA may withhold documents under the deliberative process privilege, the attorney work product privilege or attorney-client privilege under 5 U.S.C. 552(b)(5).
III. Definitions of Terms and Acronyms Used in the Report

A. Agency specific acronyms or other terms.

1. SSA – Social Security Administration
2. SSN – Social Security number

B. Basic terms, expressed in common terminology.

1. FOIA/PA Request – Freedom of Information Act/Privacy Act request. A FOIA request is generally a request for access to records concerning a third party, an organization, or a particular topic of interest. A Privacy Act request is a request for records concerning oneself; such requests are also treated as FOIA requests. (All requests for access to records, regardless of which law is cited by the requester, are included in this report.)

2. Initial Request – a request to a Federal agency for access to records under the FOIA.

3. Appeal – a request to a Federal agency asking that it review, at a higher administrative level, a full denial or partial denial of access to records under the FOIA, or any other FOIA determination such as a matter pertaining to fees.

4. Processed Request or Appeal – a request or appeal for which an agency has taken a final action on the request or the appeal in all respects.

5. Multi-Track Processing – a system in which simple requests requiring relatively minimal review are placed in one processing track and more voluminous and complex requests are placed in one or more other tracks. Requests in each track are processed on a first-in/first-out basis. A requester who has an urgent need for records may request expedited processing. (See below).

6. Expedited Processing – an agency will process a FOIA request on an expedited basis when a requester has shown an exceptional need or urgency for the records which warrants prioritization of his or her request over other requests that were made earlier.

7. Simple Request – a FOIA request that an agency using multi-track processing places in its fastest
(nonexpedited) track based on the volume and/or simplicity of records requested.

8. Complex Request - a FOIA request that an agency using multi-track processing places in a slower track based on the volume and/or complexity of records requested.

9. Grant - an agency decision to disclose all records in full in response to a FOIA request.

10. Partial Grant - an agency decision to disclose a record in part in response to a FOIA request, deleting information determined to be exempt under one or more of the FOIA's exemptions; or a decision to disclose some records in their entireties, but to withhold others in whole or in part.

11. Denial - an agency decision not to release any part of a record or records in response to a FOIA request because all the information in the requested records is determined by the agency to be exempt under one or more of the FOIA's exemptions, or for some procedural reason (such as no record is located in response to a FOIA request).

12. Time Limits - the time period for an agency to respond to a FOIA request (ordinarily 20 working days from proper receipt of a perfected" FOIA request).

13. "Perfected" Request - a FOIA request for records which adequately describes the records sought, which has been received by the FOIA office of the agency or agency component in possession of the records, and for which there is no remaining question about the payment of applicable fees.

14. Exemption 3 Statute - a separate Federal statute prohibiting the disclosure of a certain type of information and authorizing its withholding under FOIA subsection (b)(3).

15. Median Number - the middle, not average, number. For example, of 3, 7, and 14, the median number is 7.

16. Average Number - the number obtained by dividing the sum of a group of numbers by the quantity of numbers in the group. For example, of 3, 7, and
IV. Exemption 3 Statutes

A. List of exemption 3 statutes relied on by the Agency during the fiscal year.

1. 26 U.S.C. 6103 - SSA withholds tax return information, such as third party addresses and employers' names and addresses, in situations in which section 6103 of the Internal Revenue Code is applicable.

41 U.S.C. 253b(m) - The National Defense Authorization Act for Fiscal Year 1997, Public Law No. 104-201, codified at 41 U.S.C. 253b(m), contained a prohibition on the release of contractor proposals under the FOIA. It prohibits the disclosure of any proposal that is not set forth or incorporated by reference in a contract entered into between an agency and the contractor that submitted the proposal. This provides blanket protection for proposals of unsuccessful offerors.

2. Statement of whether a court has upheld the use of each statute.

26 U.S.C. 6103: Yes

Examples:

The withholding of tax return information has been approved under three different cases. See e.g., Church of Scientology v. IRS, 484 U.S. 9, 15 (1987); Aronson v. IRS, 973 F.2d 962, 964-65 (1st Cir. 1992) (finding that IRS lawfully exercised discretion to withhold street addresses pursuant to 26 U.S.C. section 6103(m)(1)); and Long v. IRS, 891 F.2d 222, 224 (9th Cir. 1989) (holding that deletion of taxpayers' identification does not alter confidentiality of section 6103 information).

The United States Supreme Court and most appellate courts that have considered withholding tax return information have held either explicitly or implicitly that section 6103 of the Internal Revenue Code satisfies subpart (B) of exemption 3.

41 U.S.C. 253b(m): Yes
Example:

The withholding of contractor proposals under this statute has been approved in Hornbostel v. Department of Interior, 305 F.Supp.2d 21. (D.D.C. 2003)

VIII. Comparison with Previous Year

In this report, SSA shows that we processed 18,691,303 requests in FY 2006, as compared to 17,223,713 processed in FY 2005. As we have explained elsewhere in this report, the 1,467,590 increase in requests processed mostly represents a continuing rise in the number of PA access requests submitted to SSA either by the individual or by a third party with consent. Many businesses and government entities, such as banks, mortgage companies, department of motor vehicles, and social insurance agencies, ask their customers and clients to verify SSNs and/or certain benefit information as part of their regular business process. As in previous years, PA requests of this nature are rarely, if ever, denied.
The vast majority of field requests continue to involve these PA access requests, which have a quick turnaround time. Requesters usually receive a record in the same day; i.e., requests from a manual, copies of the Social Security Act, requests about themselves from SSA’s computer systems, etc.

Most of the fees that SSA collected for earnings records and SSN verifications are based on a separate provision for fee charging in section 1106(c) of the Social Security Act (42 U.S.C. § 1306(c)), rather than the FOIA fee schedule. This provision allows SSA to recover the full cost of certain non-programmatic requests and is reflected by the increase in fee collections.

Other statistics significant to Agency:

1. Number of requests received for expedited processing: 52
2. Number of requests granted expedited processing: 0

IX. Costs/FOIA Staffing

1. Number of full-time FOIA personnel 38
2. Number of personnel with part-time or occasional FOIA duties (Work Years) 366
3. Total number of FOIA personnel (Work Years) 404

1. FOIA processing (including appeals) $29,057,216
2. Litigation-related activities $48,307
3. Total costs $29,105,523
4. Comparison with FY 2005 Total + $6,255,879

NOTE: SSA is reporting more resources expended commensurate with the steep rise in the reporting of processed requests.
X. Fees

1. Total amount of fees collected by Agency for processing requests $ 7,978,575
2. Percentage of total costs 27%

XII. Report on FOIA Executive Order 13392 Implementation

On December 14, 2005, the President issued Executive Order 13392, which required each agency to conduct a review of its FOIA operations, develop an agency-specific plan to improve its administration of the Act, and to include in its annual FOIA report a description of its progress in meeting the milestones and goals established in its improvement plan.

This section of the annual FOIA report contains SSA’s description of its progress in implementing the milestones and goals of the FOIA Improvement Plan.

The reporting period for this section concerning Executive Order implementation activities includes progress made by SSA through December 31, 2006.

A. Description of supplementation/modification of agency improvement plan (if applicable)

SSA added specific milestones and target dates to its improvement plan on November 6, 2006.

B. Report on agency implementation of its plan, including its performance in meeting milestones, with respect to each improvement area

SSA has met all of the goals and milestones established in the report it submitted on June 14, 2006, in response to Executive Order 13392, that were to be completed by December 31, 2006. The Office of Public Disclosure (OPD), the primary FOIA Requester Service Center for SSA, identified five areas of improvement in SSA’s FOIA Improvement Plan, as part of an ongoing effort to elevate the quality of SSA’s FOIA operations and administration. As outlined in the plan, OPD focused its efforts on the following improvement areas: streamlining operations, systems enhancements, training, reducing backlogs, and additional
staffing.

1. Streamlining Operations

In the area of streamlining operations, OPD created two Division Director positions and realigned its staff which we believe greatly improves procedures and processes in assigning and reviewing work, as well as enhances the quality of written responses.

2. Systems Enhancements

OPD is replacing its current semi-automated database control system and phasing in a comprehensive new e-FOIA system to handle all requests made to both our FOIA Requester Service Centers. Some of the system’s enhanced features include an Internet interface and the ability to receive and process credit card payments via secure channels (pay.gov). The new system also has electronic redaction capability and an extensive management system which will greatly improve the FOIA process and facilitate the preparation of the FOIA annual report. As we planned, SSA completed testing, training, installation of the e-FOIA system and is beginning to the use the system to control and process work.

3. Training

In the area of training, OPD has always emphasized continuous
training at various training forums for all of its employees, as well as other employees who serve as liaisons to SSA’s regional offices and other components. OPD hosted a three-day training conference in August 2006, which we sponsor every two years, aligning with our goal of ensuring that FOIA analysts and liaisons are receiving ongoing training. It is our hope that newer FOIA analysts can continue to capitalize on the historical knowledge of our senior analysts on staff and from other agencies through periodic in-house training and outside enrichment training.

</tbody>

4. Backlogs

OPD has a minuscule backlog, and our ultimate goal is to eliminate it entirely through weekly management meetings to review the existing backlog, managerial oversight of workloads, and considerable executive attention to those requests that require other offices to provide OPD with responsive materials. With this effort, OPD will reduce existing backlog of initial FOIA requests by a substantial percentage each year as outlined in our improvement plan. By December 31, 2006, OPD completed its goal of identifying and closing 90% of its ten oldest FOIA requests of 2006. We also reduced our existing backlog by more than our 5% goal in 2006. SSA has already identified the ten oldest requests we will target for 2007, and we plan to complete all of those well ahead of our targeted processing time.

Quarterly, or more often, the Executive Director of OPD along with the Deputy Director of OPD will review the workload of each analyst to determine redistribution and possible reallocation of resources where needed.

</tr>
<tr>

<td>Completed 12/22/06</td>
</tr>
</tbody>
</table>

5. Staffing

Our final area of improvement from the Improvement Plan is staffing. We estimate that we will lose a large number of experienced employees in the next few years to retirement. To that end, OPD has announced additional vacancies and will continue to monitor staffing levels and make recommendations to SSA leadership in order to ensure that the number of personnel dedicated to FOIA is adequate to process expected increasing workloads.

</tr>
<tr>
<td>Announce additional vacancies.</td>

</tbody>
</table>

The change to the organizational structure of OPD, the phasing in of our new e-FOIA system, as well as our focus on backlogs, employee training, and additional staffing, will greatly improve our work processes and increase our efficiency and control over future SSA workloads as outlined in our Improvement Plan.
