Social Security Administration Report on Expenditures for Union Activities

The Conference Committee Report accompanying the Departments of Labor, Health and Human Services, Education, and Related Agencies' fiscal year (FY) 1998 appropriations (Report 105-205) addressed the subject of support for union activities. The Committee requested that all departments and agencies report annually on expenditures for union representational activities. Our FY 2013 information is included in the table below:

Official Time for Union Representational Activities (Dollars in Millions)	Fiscal Year 2013
Hours of official time spent on union activities	244,290
Employees who used official time on a part-time basis	1,481
Employees who spent 100% of their time on union activities	15
Dollar Value of Official Time (e.g., salary and benefits)	\$12.6
Travel and Per Diem	\$0.7
Office Space, Telephones, and Supplies	\$1.1
Interest	\$0.1
Arbitration Expenses	\$0.1
Total Expenses	\$14.6

The Federal Service Labor-Management Relations Statute and Social Security Administration's labor contracts with the American Federation of Government Employees, the National Federation of Federal Employees, the National Treasury Employees' Union, and the International Federation of Professional and Technical Engineers obligate the agency to pay for certain costs. These costs include salaries, travel and per diem expenses, office space, telephone, and arbitration costs for union representational activities conducted on official time. Union representatives cannot use official time for internal union business (such as soliciting membership, conducting elections, or dues collection). Consistent with language in appropriations acts, the general fund of the United States Treasury will reimburse the Social Security trust funds, with interest, for the portion of these expenses attributable to the trust funds.
