#### SOCIAL SECURITY ONLINE SERVICES MAKE JUGGLING EASY

For more than 80 years, Social Security has helped secure today and tomorrow with information, tools and resources to meet our customers' changing needs and lifestyles.

These days, with busy schedules and constant multi-tasking, it seems the most common kind of juggling for people is managing the multiple chores and obligations of everyday life. Social Security created a suite of online services that makes doing business with us a snap.

The best way to juggle a multitude of Social Security tasks online is by creating a secure, personal **my Social Security** account. Creating your own account is easy, and, once you do, you can complete a number of tasks. Check it out at [www.socialsecurity.gov/myaccount](http://www.socialsecurity.gov/myaccount).

Your account gives you immediate access to your personal Social Security information. During your working years, you can use **my Social Security** to view your *Social Security Statement* to check your earnings record and see estimates of the future retirement, disability, and survivor benefits you and your family may receive. Are you already receiving benefits? You can use your online account to immediately get your proof of benefits letter, change your address or phone number on our records, start or change your direct deposit, check your benefit and payment information, get a replacement Medicare card, or get a replacement SSA-1099 or SSA-1042S for the tax season. With a **my Social Security** account you can securely conduct business in the privacy of your own home.

From getting the facts on how to get a replacement Social Security card to how to apply online for disability benefits, the place to go for juggling all of the services and information offered by Social Security is our website: [www.socialsecurity.gov](http://www.socialsecurity.gov).
