

Detailed Single Year Tables
Category of Change: Cost-of-Living Adjustment

Proposed Provision: Starting with the December 2012 cost-of-living adjustment (COLA), compute the COLA based on changes in the Consumer Price Index for the Elderly (CPI-E). Use of this CPI series is estimated to result in an annual COLA that is 0.2 percentage point higher, on average, than using the consumer price index for urban wage and clerical workers (CPI-W).

Proposal					Change from Present Law
