August 2, 2019

The Honorable Mick Mulvaney
Director, Office of Management and Budget
Eisenhower Executive Office Building, Room 252
1650 Pennsylvania Avenue, NW
Washington, DC  20503

Dear Mr. Mulvaney:

We are pleased to provide the annual progress report on our Tribal Consultation and Coordination Plan. Since we submitted our last progress report on August 3, 2018, we completed a number of activities to advance our plan. We detailed our progress in the enclosed report.

Our Tribal Consultation Workgroup met regularly to review our consultation policies and outreach efforts. We continue to work closely with tribal leaders through our communication, education, and outreach activities.

If you have any questions, please contact me, Social Security’s Tribal Consultation Official, at (410) 965-3120.

Sincerely,

Nancy A. Berryhill
Senior Advisor
Office of the Commissioner

Enclosures
The Social Security Administration (SSA) is committed to strengthening our relationship with Indian tribes through multiple initiatives as defined in Executive Order 13175, *Consultation and Coordination with Indian Tribal Governments*.

We would like to provide updates for the following initiatives:

- Improve Service Delivery by Responding to Policy and Legislative Proposals.
- Maintain and Expand Ongoing Communication.
- Outreach to Tribal Community Military Service Members, Veterans, and Families.
- Continuing Outreach and Tribal Consultation Efforts.

**Improve Service Delivery by Responding to Policy and Legislative Changes**

Since our last progress report on August 4, 2018, we took the following steps to implement the 2018 Social Security Fairness Act (Act):

- We developed materials and provided training on the Act for Public Affairs Specialists to use during outreach events.
- We created and shared an Emergency Message providing guidance to technicians.
- We created and implemented a SharePoint site for our American Indian and Alaska Native (AIAN) workgroup, which houses resources to assist in the execution of Tribal Agreements and tracks the Tribal Agreements.
- We developed a business process that provides guidance to our regional specialists.
- We shared the Tribal Council legislation with all of our management in the field.

**Maintain and Expand Ongoing Communication**

To improve access and understanding of our programs, we continue to conduct seminars with Indian tribes and tribal entities. At these seminars, we shared information on our retirement and disability programs, including our Wounded Warrior provisions, Supplemental Security Income, Medicare “Extra Help”, Medicare State Buy-in provisions, online services, and service delivery updates. We also helped tribal community members create *my Social Security* accounts.

Below are examples of activities we participated in to strengthen our relationship with Native American tribes since our last progress report:

- Attended the National Indian Conference on Aging, where Former Acting Commissioner Nancy Berryhill and Executive Champion Renée Ferguson presented information about benefits, access to Social Security Services, and initiatives to reach Native American communities. Social Security employees staffed an information exhibit to answer programmatic questions and assisted attendees in signing up for *my Social Security*.
- Attended the Native American Finance Officers Association Conference, where Former Acting Commissioner Nancy Berryhill and Executive Champion Renée Ferguson presented information about benefits, access to Social Security Services, and initiatives to reach Native American communities. Social Security employees staffed an information exhibit to answer programmatic questions and assisted attendees in signing up for *my Social Security*.
• Updated the national Tribal Benefits Coordinator Guide to reflect policy updates and changes to SSA’s programs and services. The guide is used as a desktop resource by tribal communities and advocates.

• Explored ways that our programs and services can benefit Tribal Colleges and Universities (TCU) by communicating and collaborating with our network of noncompetitive eligibility contacts. This effort included outreach to SSA’s National Veterans’ Outreach and Selective Placement Coordinators, Career One Stop Centers, Vocational Rehabilitation Offices, Ticket to Work Job Service Providers and College/University Disability and Career Services.

• Participated in a CMS-hosted webinar to reach out to tribal healthcare workers regarding eligibility for benefits, with more than 170 participants representing 90 tribes and tribal organizations.

• Marketed job and contract service opportunities through multiple announcements and national postings, including outreach through TCUs.

• Donated computer equipment to a tribal organization in Minnesota (Refer to Addendum Section A).

• Continued to promote the use of Video Service Delivery (VSD) as an option for conducting business with the Social Security Administration (Refer to Addendum Section B).

• Conducted workshops with over 62,500 participants at more than 200 events (Refer to Addendum Section C).

• Conducted outreach with tribal communities using multiple media outlets servicing AIAN communities (Refer to Addendum Section D).

Outreach to Tribal Community Military Service Members, Veterans, and Families
To raise awareness about our expedited disability claim initiatives for military service members and veterans, we conducted outreach at approximately 12 events in various states, including participation in the National Gathering of American Indian Veterans. (Refer to Addendum Section E).

Continuing Outreach and Tribal Consultation Efforts
We continue to enhance our outreach and consultation efforts with tribal communities. Below is a list of highlights:

1. Seeking Input from Tribes
   • Solicited feedback on service delivery to tribal communities while sharing information about our programs and service delivery initiatives. Since our last report, we had discussions with more than 100 tribal organizations (Refer to Addendum Section F).

2. Developing Core Consultation Issues
   • Served on the White House Council on Native American Affairs, represented by our Tribal Consultation Official, Former Acting Commissioner Nancy Berryhill.

   • Facilitated Tribal Council Coverage agreement with Mashantucket Pequot Tribal Nation in Connecticut.
• Enhanced our awareness of Native American Culture by participating in various meetings with Cultural Centers across the nation.

• Met with the Elder Justice Coordinating Council in coordination with the Department of Justice to discuss collaboration on elder-abuse issues in rural and tribal communities.

3. Enhancing Staff Training and Awareness
• Collaborated across regional lines to share training and outreach materials. This effort will assist employees to build and foster relationships built on trust, open communication, and cooperation in the tribal communities by establishing a partnership between Regional Public Affairs Offices and the AIAN Advisory Council regional liaisons. This collaboration allows the regions to foster better relationships with local AIAN communities.

• Participated in the Society of American Indian Government Employees Annual National Training Conference. Former Acting Commissioner Nancy Berryhill and Executive Champion Reneé Ferguson promoted leadership opportunities to tribal leaders along with federal and state government employees in Green Bay, WI.

• Created an AIAN Employee Resource Portal, which centralizes resources to help ensure we provide the best possible service to our AIAN customers.

4. Consulting Regularly with Tribes
• Met with the Ute Mountain Health Center Chief Executive Officer to discuss potential placement of a VSD unit.

• Met with the Klamath and Siletz Indian Tribe officials in Oregon to discuss the advantages of VSD services.

• Exchanged information between SSA and tribal governments:
  o Used Office of Personnel Management’s USA JOB web-based recruitment and application system in an effort to reach individuals across the country.
  o Collaborated with the AmeriCorps Indian Tribes to share information on contract solicitations for tribal communities.

5. Additional activities in support of Executive Order 13270 – TCU
As part of our outreach and communication efforts with tribal governments and tribal colleges and universities, we will continue to:

• Collaborate with TCUs on recruiting students to target tribal members who are missing Social Security benefits.

• Participated in the Haskell Indian Nations University Career Fair in Lawrence, KS as a recruitment effort.
A. We responded to a need for resources for tribal organizations and donated the following computer equipment items:

- Four complete computer systems of central processing units, monitors, and keyboards to the Little Earth of United Tribes, Minneapolis Urban Office.

B. We continued to expand Video Service Delivery (VSD) options to improve access to services for tribal locations:

Multiple training sessions highlighted access to SSA representatives through VSD, providing live interaction to explain benefits and take claims, including the following:

- Discussion with the Chief Executive Officer of the Ute Mountain Health Center in Colorado to discuss placement of a VSD unit.
- Meeting with Klamath Tribes representatives in Oregon.
- Meetings with the Siletz Indian representatives in Oregon.

C. We also conducted workshops:

**ALASKA**
- 8 participants at the Aleutian Pribilof Islands Association meeting

**ALABAMA**
- 200 participants at the Poarch Creek Indians Financial Festival

**ARIZONA**
- 500 participants at the Family Wellness Event for Tohono O’odham Tribe
