## Notes and Brief Reports

## Effects of OASDI Benefit Increase, June 1980*

Social security checks delivered to beneficiaries in the first week of July 1980 reflected the sixth automatic cost-of-living increase in cash benefits under legislation enacted in 1972 and 1973. The 14.3-percent increase,

[^0]which became effective for June, applied to all persons receiving social security benefits at the end of May.

Automatic increases are initiated whenever the Consumer Price Index (CPI) of the Bureau of Labor Statistics for the first calendar quarter of a year exceeds the CPI for the base quarter by at least 3 percent. That base is either the first calendar quarter of the preceding year or the quarter in which an increase was legislated by Congress. In this case, the base quarter was the first quarter of 1979. The size of the benefit increase is determined by the actual percentage rise of the CPI during the quarters measured.

## Benefit Amounts

Monthly benefit amounts payable at the end of May 1980 both before and after the 14.3-percent increase are shown in table 1. The new rates resulted in a rise of $\$ 1.3$ billion per month for the 35.3 million persons receiving benefits at that time.

As a result of the benefit increase, average monthly benefits payable to retired workers were $\$ 376.08$ for men (up \$47.11) and $\$ 294.23$ for women (up \$36.87). Average amounts for disabled workers were $\$ 405.21$ for men and $\$ 296.00$ for women-increases of $\$ 51.01$ and $\$ 37.22$, respectively. Average increases for entitled dependents of these workers ranged from $\$ 14.12$ for children of disabled workers to $\$ 21.34$ for wives and husbands of retired workers. Among survivors of deceased workers, average benefit increases were highest for nondisabled widows and widowers (\$38.77) and lowest for disabled widows and widowers ( $\$ 25.79$ ), resulting in average benefits of $\$ 309.42$ and $\$ 205.69$, respectively.

Social security benefits are based on a worker's primary insurance amount (PIA). The full PIA is payable to a retired worker who becomes entitled to
benefits at age 65 and to an entitled disabled worker at any age. Retired workers can receive benefits as early as age 62 , but the benefit is actuarially reduced by $5 / 9$ of 1 percent for each month of entitlement before age 65. The full PIA is also payable to a widow or widower who becomes entitled to these benefits at age 65 , provided that the deceased spouse did not receive reduced benefits. Other survivors of deceased workers and spouses and children of retired or disabled workers receive set proportions of the PIA, subject to a family maximum amount.

The PIA is based on an individual's covered earnings averaged over his or her working lifetime. For a worker who reached age 62 , became disabled, or died before 1979 the PIA is generally based on the worker's average monthly earnings (AME), which are the actual taxable earnings reported by employers or self-employed individuals. For a worker who reached age 62, became disabled, or died in 1979 or later the PIA is generally based on the worker's average indexed monthly earnings (AIME). Earnings from 1951 up to the second year before the year the worker reaches age 62 , becomes disabled, or dies are indexed to reflect increases in average wages that have occurred since then.

Table 2.-Examples of monthly cash benefit awards for selected beneficiary families with first eligibility in 1980, by average indexed monthly earnings, effective June 1980

[^2]The AIME method of computing the PIA resulted from the 1977 Amendments to the Social Security Act. To protect workers nearing retirement when the new method was implemented, individuals who reach age 62 in the period 1979-83 are guaranteed retirement benefits no lower than the amount they would have received under the AME method as of December 1978. This guarantee does not apply to survivor or disability computations except for survivors of workers who attained age 62 during this period and who died in or after the month in which age 62 was attained. ${ }^{1}$

Tables 2 and 3 show examples of monthly benefits effective June 1980 for various family groups at selected AME and AIME levels. Benefits shown for the highest AME's are not usually possible because current AME's are based in part on earnings for earlier years when the

[^3]maximum amounts creditable for social security purposes were lower. ${ }^{2}$ The highest PIA for June 1980 for a worker who retired at age 65 in that year was $\$ 653.80$, based on an AME of $\$ 784$. Minimum and maximum retired-worker benefits paid to persons who retired at age 65 during the years 1940-80 are shown in table 4.

## Benefits Under Special Minimum Provision

The special minimum PIA, initiated in January 1973, was designed to help persons with many years of work in covered employment at low earnings. Unlike the regular PIA, the special minimum PIA is not related to a worker's average earnings but to the number of years in covered employment. The special minimum PIA was established at a range of \$85-170 in January 1973 and was raised to $\$ 90-180$ in March 1974. It remained at

[^6]$\$ 230$ a month. The amendments also provided that the special minimum PIA be subject to the same automatic cost-of-living increases as regular benefits. Effective June 1980, the highest special minimum PIA is $\$ 289$ per month.

The special minimum PIA is used only when it is greater than an individual's regular PIA. Since the special minimum PIA remained constant from March 1974 through December 1978, and the regular PIA was increased several times during that period, the special minimum PIA gradually lost its advantage. Special minimum benefits were converted to regular benefits, and the number of beneficiaries with the special minimum PIA dropped sharply with each benefit increase. By December 1978, only 12 persons were receiving benefits based on the special minimum PIA (table 5).

As a result of the increase in the special minimum PIA authorized by the 1977 amendments, nearly 86,000 beneficiaries were receiving benefits based on the special minimum PIA at the end of May 1979. By the end of May 1980, the number rose to nearly 90,000 . As a result of the June 1980 benefit increase, the average special minimum PIA for these beneficiaries rose from $\$ 245.20$ to $\$ 280.25$ and remained advantageous for all of these beneficiaries.

Table 5.-Beneficiaries with special minimum PIA, at end of specified month, 1973-80

| Specified month | Number of beneficiaries | Average |  |  |
| :---: | :---: | :---: | :---: | :---: |

${ }^{1}$ Data not available.

[^0]:    * By Barbara A. Lingg, Division of OASDI Statistics, Office of Research and Statistics, Office of Policy, Social Security Administration.

[^1]:    ${ }^{1}$ Includes transitionally insured beneficiaries.

[^2]:    ${ }^{1}$ Represents minimum PIA of $\$ 122$ increased by 14.3 percent, effective June 1980. Special rules govern the addition of cost-of-living increases to these cases; it is thus possible that some beneficiaries may not be eligible for this increase.
    ${ }^{2}$ The 1980 Amendments to the Social Security Act provide for different family maximum amounts for disability cases for those who become entitled to disability benefits beginning with July 1980. Generally, if the AIME is less than $\$ 213$, the July maximum is equal to the PIA. If the AIME is between $\$ 213$ and

[^3]:    ${ }^{1}$ For a discussion of changes resulting from the 1977 amendments and information about computation methods, see John Snee and Mary Ross, "Social Security Amendments of 1977: Legislative History and Summary of Provisions," Social Security Bulletin, March 1978, pages 3-20, and Department of Health, Education, and Welfare, Social Security Administration, Social Security Handbook, July 1978, pages 109-145.

[^4]:    2 Maximum creditable earnings for social security purposes were $\$ 3,000$ in 1937-50, $\$ 3,600$ in 1951-54, $\$ 4,200$ in 1955-58, $\$ 4,800$ in 1959-65, $\$ 6,600$ in 1966-67, $\$ 7,800$ in 1968-71, $\$ 9,000$ in 1972, $\$ 10,800$ in $1973, \$ 13,200$ in $1974, \$ 14,100$ in $1975, \$ 15,300$ in 1976 , $\$ 16,500$ in $1977, \$ 17,700$ in $1978, \$ 22,900$ in 1979 , and $\$ 25,900$ in 1980. The 1977 amendments provide that the maximum creditable amount will increase to $\$ 29,700$ in 1981. After 1981, the maximum will be automatically adjusted to keep up with average wage levels.

[^5]:    ${ }^{1}$ Widows or widower's benefit limited to amount spouse would have been receiving if still living but not less than $821 / 2$ percent of PIA.
    ${ }^{2}$ Sole survivor.
    Note: The higher monthly earnings shown in column headings on the right

[^6]:    ${ }^{1}$ Assumes retirement at beginning of year.
    ${ }^{2}$ Represents benefit for both men and women until 1962.
    ${ }^{3}$ Effective for February 1968.
