NOTES: Because of differences in data sources and calculation methods, statistics reported in this table may differ from those reported by Actuarial Services.

These data represent the total number of beneficiaries whose benefits were terminated during the calendar year regardless of the effective date of the termination.

Data include closed period awards.

FRA = full retirement age; (X) = suppressed to avoid disclosing information about particular individuals; . . . = not applicable; -- = not available.

a. Benefits from the Disability Insurance Trust Fund are terminated and converted to benefits from the Old-Age and Survivors Insurance Trust Fund.

b. Dependents' benefits terminate when the disabled worker no longer meets the requirements for disability benefits. Disabled widow(er)s and disabled adult children of deceased or retired workers lose their benefits when they no longer meet the requirements for disability benefits. If a disabled adult child's benefit terminates because the disabled worker no longer meets the requirements for disability benefits, then the specific reason for not meeting the requirements for disability benefits cannot be determined.

c. Excludes disabled beneficiaries whose monthly benefits have been suspended because the beneficiaries are engaging in substantial gainful activity during the extended period of eligibility.
