NOTES: Because of differences in data sources and calculation methods, statistics reported in this table may differ from those reported by Actuarial Services.

These statistics represent the total number of beneficiaries whose benefits were terminated during the calendar year regardless of the effective date of the termination.

Statistics include closed period awards.

FRA = full retirement age; ... = not applicable; (X) = suppressed to avoid disclosing information about particular individuals.

- a. Benefits from the Disability Insurance Trust Fund are terminated and converted to benefits from the Old-Age and Survivors Insurance Trust Fund.
- b. Dependents' benefits terminate when the disabled worker no longer meets the requirements for disability benefits. Benefits for disabled widow(er)s and disabled adult children also terminate when they no longer meet the requirements for disability benefits.
- c. Excludes disabled beneficiaries whose monthly benefits have been suspended because of substantial gainful activity (SGA) during the extended period of eligibility. These individuals may continue to qualify for Medicare coverage for several years after benefits are suspended.
- d. If a dependent's benefit terminates because the disabled worker no longer meets the requirements for disability benefits, then the specific reason for not meeting the requirements for disability benefits cannot be determined.
