

Income Sources

Key Terms and Concepts for Section 2¹

Table characteristics

Age. Age classification is based on the age of the person at his or her last birthday as of March 2009. A married couple's age is defined as the age of the husband—unless he is under age 55 and the wife is 55 or older, in which case it is the age of the wife.

Aged unit. With age 55 as the cutoff, aged units are defined as married couples living together at least one of whom is 55 or older—and nonmarried persons 55 or older.

Marital status. Married persons are married and living with their spouse. Nonmarried persons may be divorced, widowed, never married, separated, or married but living apart from their spouse.

Race. The categories White alone, Black alone, and Asian alone reflect respondents who reported only one race. Because of changes to the race category, data on race are not directly comparable to editions prior to 2002. A person's race is his or her reported race. A married couple's race is defined as the race of the husband.

Hispanic origin. Persons of Hispanic origin may be of any race. A married couple is of Hispanic origin if the husband is of Hispanic origin.

Family. A family is a group of two or more people (one of whom is the householder) related by birth, marriage, or adoption and residing together; all such people (including related subfamily members) are considered as members of one family.

Social Security beneficiary. A beneficiary may be receiving retired-worker benefits, dependents' or survivor benefits, disability benefits, or transitionally insured benefits.

Poverty. The Census Bureau uses a set of money income thresholds that vary by family size and composition to detect who is poor. If a family's total income is less than that family's threshold, then that family, and every individual in it, is considered poor.

Per capita income. Per capita income is total family income divided by the number of persons in the family.

The ratio of Social Security income to total income. This ratio is defined as Social Security income divided by total income. Units and persons in families with less than \$1 of total income or negative earnings or asset income are excluded from these tables.

Income sources

Earnings

Wages and salaries. Wages and salaries is defined as total money earnings received for work performed as an employee during the income year. It includes wages, salary, Armed Forces pay, commissions, tips, piece-rate payments, and cash bonuses earned, before deductions are made for taxes, bonds, pensions, union dues, and so forth. Earnings for self-employed persons in incorporated businesses are considered wage and salary.

Self-employment. Income from selfemployment is the combined income from farm and nonfarm self-employment.

Retirement benefits

Social Security. Includes retired-worker benefits, dependents' or survivor benefits, disability benefits, and transitionally insured benefits.

Government employee pensions. Government employee pensions include regular payments from federal government (civil service), military, and state or local governments.

Private pensions and annuities. Private pensions and annuities include regular payments from companies or unions, annuities or paid-up insurance policies, individual retirement accounts (IRAs), Keogh, or 401(k) payments. Nonregular (nonannuitized or lump-sum) withdrawals from IRA, Keogh, and 401(k) plans are not included as income.

Asset income

Interest income. Interest includes payments people receive (or have credited to their accounts) from bonds, treasury notes, IRAs, certificates of deposit, interest-bearing savings and checking accounts, and all other investments that pay interest.

Dividends. Dividends include income people receive from stock holdings and mutual fund shares. The CPS does not include capital gains from the sale of stock holdings as income.

Rents, royalties, and estates and trusts. Include net income people receive from the rental of a house, store, or other property, receipts from boarders or lodgers, net royalty income, and periodic payments from estate or trust funds.

Other income

Unemployment compensation. Includes payments the respondent received from

¹ For more information, consult the Glossary at the front of this publication.

government unemployment agencies or private companies during periods of unemployment and any strike benefits the respondent received from union funds.

Workers' compensation. Includes payments people receive periodically from public or private insurance companies for injuries received at work.

Veterans' payments. Include payments disabled members of the armed forces or survivors of deceased veterans receive periodically from the Department of Veterans Affairs for education and on-the-job training, and means-tested assistance to veterans.

Personal contributions. Include child support, alimony, and financial assistance from friends and relatives.

Public Assistance—Cash benefits

Supplemental Security Income. Supplemental Security Income includes payments made by federal, State, and local welfare agencies to low-income persons who are aged (65 or older), blind, or disabled, and who have limited income and financial resources.

Other Public Assistance. Includes cash public assistance payments low-income people receive, such as Aid to Families with Dependent Children (AFDC, ADC), temporary assistance to needy families (TANF), general assistance, and emergency assistance.

Public Assistance—Noncash Benefits

Noncash benefits. Include food stamps, energy assistance, and housing assistance. Receipt of noncash benefits is only reported in the section on the sources of income received. No dollar

values are assigned to the noncash benefits in this publication, and they are not included in total money income. A person or aged unit is indicated as having received a noncash benefit if any person in the household received food, energy, or housing assistance.

Food. In this publication, food noncash benefits are comprised solely of food stamps.

Energy. The Low-Income Home Energy Assistance Program provides financial assistance to qualified households to help them pay heating costs.

Housing. There are some programs through which housing assistance is provided to low-income families and individuals living in public or privately owned dwellings. Two of the more common types of programs in which federal, State, and local funds are used to subsidize private sector housing are rent supplement and interest reduction plans.

Percentage with income from specified source, by marital status and age, 2008

| | | | | Age | d 65 or older | | |
