

# SECTION 10

## Shares of Aggregate Income, by Source

## Key Terms and Concepts for Section 10 <sup>1</sup>

**Age.** Age classification is based on the age of the person at his or her last birthday as of March 2015. A married couple's age is defined as the age of the husband—unless he is under age 55 and the wife is 55 or older, in which case it is the age of the wife.

**Aged unit.** With age 55 as the cutoff, aged units are defined as married couples living together—at least one of whom is 55 or older—and non-married persons 55 or older.

**Marital status.** Married persons are married and living with their spouse. Nonmarried persons may be divorced, widowed, never married, separated, or married but living apart from their spouse.

**Race.** The categories White alone, Black alone, and Asian alone reflect respondents who reported only one race. Because of changes to the race category, data on race are not directly comparable to editions prior to 2002. A person's race is his or her reported race. A married couple's race is defined as the race of the husband.

**Hispanic origin.** Persons of Hispanic origin may be of any race. A married couple is of Hispanic origin if the husband is of Hispanic origin.

**Family.** A family is a group of two or more people (one of whom is the householder) related by birth, marriage, or adoption and residing together; all such people (including related sub-family members) are considered as members of one family.

**Social Security beneficiary.** A beneficiary may be receiving retired-worker benefits, dependents' or survivor benefits, disability benefits, or transitionally insured benefits.

**Poverty.** The Census Bureau uses a set of money income thresholds that vary by family size and composition to detect who is poor. If a family's total income is less than that family's threshold, then that family, and every individual in it, is considered poor. The poverty thresholds do not vary geographically, but they are updated annually for inflation with the Consumer Price Index (CPI-U). The official poverty definition counts money income before taxes and excludes capital gains and noncash benefits (such as public housing, Medicaid, and SNAP benefits).

### Income sources

**Retirement benefits.** Include Social Security benefits, Railroad Retirement income, government employee pensions, and private pensions or annuities.

**Social Security.** Includes retired-worker benefits, dependents' or survivor benefits, disability benefits, and transitionally insured benefits.

**Government employee pensions.** Include payments from federal (civil service), military, state or local governments.

**Private pensions or annuities** include payments from: companies or unions; annuities or paid-up insurance policies; and payments from individual retirement accounts (IRAs), Keogh, or 401(k) payments; or other retirement income.

**Earnings.** Include wages and salaries and self-employment. *Wages and salaries* is defined as total money earnings received for work performed as an employee during the income year. It includes wages, salary, Armed Forces pay, commissions, tips, piece-rate payments,

and cash bonuses earned, before deductions are made for taxes, bonds, pensions, union dues, and so forth. Earnings for self-employed persons in incorporated businesses are considered wage and salary. *Self-employment* is the combined income from farm and nonfarm self-employment.

**Asset income.** Includes income from interest, dividends, rent, royalties, and estates and trusts. *Interest* includes payments people received (or have credited to their accounts) from bonds, treasury notes, IRAs, certificates of deposit, interest-bearing savings and checking accounts, and all other investments that pay interest. *Dividends* include income from stock holdings and mutual fund shares. The CPS does not include capital gains from the sale of stock holdings as income. *Rents, royalties, and estates and trusts* includes net income from the rental of a house, store, or other property, receipts from boarders or lodgers, net royalty income, and periodic payments from estate or trust funds.

**Public Assistance.** Includes Supplemental Security Income and other monetary public assistance programs. Noncash benefits are not included.

**Other income** is total income minus retirement benefits, earnings, income from assets, and public assistance. Some income sources represented in this category include worker's compensation, unemployment benefits, alimony, child support, and financial assistance from friends and relatives.
