

Social Security

SSI ANNUAL STATISTICAL REPORT, 2025

Social Security Administration
250 E Street SW, 8th Floor
Washington, DC 20254

SSA Publication No. 13-11827
Produced and published at U.S. taxpayer expense

Released: August 2026

Highlights

Size and Scope of the Supplemental Security Income Program, 2025

- About 7.4 million people received federally administered payments in December 2025.
- The average monthly payment in December 2025 was \$715.
- Total payments for the year were about \$65 billion, including \$3.4 billion in federally administered state supplementation.

Profile of Recipients, December 2025

- The majority were female (51 percent).
- Almost 14 percent were under age 18, 52 percent were aged 18 to 64, and 34 percent were aged 65 or older.
- Most (84 percent) were eligible on the basis of blindness or a disability.
- Seven out of 10 recipients under age 65 were diagnosed with a mental disorder.
- Fifty-five percent of SSI recipients had no income other than their SSI payment.
- Thirty-five percent of SSI recipients also received Social Security benefits.
- Of the people receiving SSI benefits, 1.4 percent were residing in a Title XIX institution where Medicaid was paying more than half of the cost.

Errata Policy

Any corrections to the statistics in this report will be posted as errata at https://www.ssa.gov/policy/docs/statcomps/ssi_asr/2025/index.html.

Preface

Since 1974, the Supplemental Security Income (SSI) program has guaranteed a minimum level of income for needy aged, blind, or disabled individuals. Each year, this report presents statistics on the SSI program and the people who receive payments from it. This report covers such topics as:

- federal benefit rates, total annual payments, and total recipients;
- federally administered payments;
- recipients of Social Security, SSI, or both;
- children under age 18;
- noncitizens;
- diagnoses of recipients under age 65;
- recipients who work;
- applications;
- awards;
- outcomes of applications for disability benefits; and
- suspensions, terminations, and duration of eligibility.

The *Annual Report of the Supplemental Security Income Program* Section III and appendixes at <https://www.ssa.gov/OACT/ssir/index.html> provide program descriptions and background information helpful for understanding the statistics in this report. Also, the Glossary section formerly contained in this report is now provided at <https://www.ssa.gov/policy/about/glossary.html>.

Your suggestions and comments on this report are welcome and should be directed to statistics@ssa.gov. This and other statistical reports on the Social Security and Supplemental Security Income programs are available at <https://www.ssa.gov/policy>.

August 2026

Notes

All payments are federally administered payments.

All years are calendar years unless otherwise specified.

Monthly statistics shown in tables are for the end of the given month.

Because some values in this report are independently rounded, the sum of components may not equal reported totals, and percentage distributions may not total 100.

Beginning with the 2007 edition, tables from the discontinued reports *Children Receiving SSI* and *SSI Disabled Recipients Who Work* were incorporated into this report.

Beginning with the 2020 edition, some of the mental disorder diagnostic groups were renamed:

<u>Former name</u>	<u>New name</u>
Autistic disorders	Autism spectrum disorders
Developmental disorders	(Unchanged)
Childhood and adolescent disorders not elsewhere classified	(Unchanged)
Intellectual disability	Intellectual disorders
Mood disorders	Depressive, bipolar, and related disorders
Organic mental disorders	Neurocognitive disorders
Schizophrenic and other psychotic disorders	Schizophrenia spectrum and other psychotic disorders
Other mental disorders	(Unchanged)

Also beginning with the 2020 edition, attention deficit/hyperactivity disorder (ADHD) diagnoses were reallocated from the “childhood and adolescent disorders not elsewhere classified” group to the “other mental disorders” group to reflect the agency’s adoption of an ADHD diagnostic code for both children and adults.

Contents

NOTE: The Background section formerly contained in this report is provided in the *Annual Report of the Supplemental Security Income Program* Section III at <https://www.ssa.gov/OACT/ssir/index.html>.

Tables

Federal Benefit Rates, Total Annual Payments, and Total Recipients

1. Monthly federal SSI benefit rates, 1974–2026 1
2. Total payments, by eligibility category and type of payment,
selected years 1974–2025 3
3. Total recipients, by age and type of payment, 2003–2025 7

Federally Administered Payments

4. Recipients, by age, December 1974–2025 11
5. Recipients and their total and average monthly payments, by type of payment,
sex, eligibility category, and age, December 2025 12
6. Recipients and their average monthly payment, by selected characteristics,
eligibility category, and age, December 2025. 13
7. Recipients, by type of representative payee, eligibility category, and age,
December 2025. 14
8. Recipients, by type of income, eligibility category, and age, December 2025 . . . 15
9. Recipients and their average monthly payment, by receipt of Social Security,
type of income, eligibility category, and age, December 2025 16
10. Recipients, by state or other area, eligibility category, and age,
December 2025. 17
11. Average monthly payment, by state or other area, eligibility category, and age,
December 2025. 19
12. Recipients and their average income, by type of income and marital status,
December 2025. 21
13. Recipients as a percentage of resident population, by state,
December 2025. 22
14. Foreign-born recipients, by region, country of origin, eligibility category,
and age, December 2025. 24

Recipients of Social Security, SSI, or Both

15. Persons aged 18–64 receiving benefits on the basis of disability
and their total and average monthly payments, by type of beneficiary,
December 1996–2025 27
16. Persons aged 18–64 receiving both Social Security benefits and SSI on the
basis of disability and their average monthly Social Security benefit and SSI
payment, by state or other area and type of beneficiary, December 2025 30

Children Under Age 18

17.	Recipients and their average monthly payment, by state or other area, December 2025	35
18.	Percentage distribution of recipients, by monthly payment amount, December 2025	37
19.	Recipients, by selected characteristics, December 2025	38
20.	Recipients, by diagnostic group and age, December 2025	39
21.	Recipients, by diagnostic group and sex, December 2025	40
22.	Adult recipients who first became eligible for SSI before age 18, by year of first eligibility and age in December 2025	41
23.	Recipients and average monthly amount of child's income, by type of income, December 2025	42
24.	Recipients, by number of parents in the household, December 2025	43
25.	Recipients with one parent in the household, by type and monthly amount of parental income, December 2025	44
26.	Recipients with two parents in the household, by type and monthly amount of parental income, December 2025	45
27.	Recipients with one or more parents who have income and average monthly amount of parental income, by type of income, December 2025	46
28.	Recipients subject to deeming, by factors affecting parental deemed income, December 2025	47

Noncitizens

29.	Recipients, by eligibility category, December 1982–2025	51
30.	Recipients, by selected characteristics and citizenship status, December 2025	52
31.	Recipients, by state or other area, eligibility category, and age, December 2025	53
32.	Recipients, by region and country of origin, eligibility category, and age, December 2025	55
33.	Recipients, by number of months between date of U.S. residency and date of SSI application, eligibility category, and age, December 2025	56

Recipients Under Age 65

34.	Recipients, by diagnostic group, December 2017–2025	59
35.	Recipients and their average monthly payment, by diagnostic group and age, December 2025	60
36.	Recipients, by diagnostic group, age, and sex, December 2025	62
37.	Recipients with a representative payee, by diagnostic group and age, December 2025	63
38.	Percentage distribution of recipients by diagnostic group, by state or other area, December 2025	64
38.A.	Percentage distribution of recipients by mental disorders diagnostic group, by state or other area, December 2025	68

39.	Average monthly payment, by state or other area and diagnostic group, December 2025	70
39.A.	Average monthly payment, by state or other area and mental disorders diagnostic group, December 2025	74

Recipients Who Work

40.	Blind and disabled recipients who work, selected months 1976–2025	79
41.	Blind and disabled recipients who work, by state or other area, December 2025	81
42.	Percentage distribution of all blind and disabled recipients and those who work aged 18–64, by diagnostic group, December 2025	83
43.	All blind and disabled recipients, those who work, and section 1619(b) participants aged 18–64, by age, December 2025	84
44.	Blind and disabled recipients in December 2024, by program status and earnings in December 2025.	85
45.	Blind and disabled recipients who work, by state or other area, December 2025	86
46.	Blind and disabled recipients who work and their average earnings, by selected characteristics, December 2025	88
47.	Number of section 1619 participants and percentage change from prior period, selected months 1982–2025	90
48.	Ranking of state or other area, by section 1619 participants as a percentage of all blind and disabled recipients in state aged 18–64, December 2025	92
49.	Section 1619(a) participants and their average earnings, by state or other area, selected months 2024–2025	94
50.	Section 1619(b) participants and their average earnings, by state or other area, selected months 2024–2025	96
51.	Section 1619 participants and their average earnings, by selected characteristics, December 2025	98
52.	Percentage distribution of section 1619 participants aged 18–64, by diagnostic group, December 2025.	99
53.	Recipients benefiting from specified work incentives, by state or other area and provision, December 2025	100
54.	Recipients benefiting from specified work incentives, by selected characteristics and provision, December 2025	102
55.	Percentage distribution of recipients benefiting from specified work incentives, by diagnostic group and provision, December 2025	103
56.	Percentage distribution of recipients with income excluded under specified work incentives, by amount excluded and provision, December 2025	104

Applications

57.	All applications, by age of applicant, 1973–2025	107
58.	Applications for children under age 18, by selected characteristics, 2017–2025	109
59.	Applications for adults aged 18–64, by selected characteristics, 2017–2025	110

60. Applications for adults aged 65 or older, by selected characteristics, 2017–2025	111
61. All applications, by state or other area and age of applicant, 2025.	112
62. All applicants, by year of first application and age, 1973–2025	114

Awards

63. All awards, by age of awardee, 1974–2025	119
64. Awards for children under age 18, by selected characteristics, 2017–2025 . . .	121
65. Awards for adults aged 18–64, by selected characteristics, 2017–2025	122
66. Awards for adults aged 65 or older, by selected characteristics, 2017–2025 . .	124
67. All awards, by state or other area and age of awardee, 2025	125
68. All persons awarded SSI, by year of first award and age, 1974–2025	127

Outcomes of Applications for Disability Benefits

Notes	130
69. Outcomes at all adjudicative levels, by age and year of application, 1992–2024	131
70. Medical decisions at the initial adjudicative level, by age, year of application, and program, 1992–2024	134
71. Medical decisions at the reconsideration level, by age, year of application, and program, 1992–2024.	137
72. Medical decisions at the hearing level or above, by age, year of application, and program, 1992–2024.	140
73. Number and percentage distribution of final medical allowances, by age, year of application, and reason for allowance, 1992–2024	143
74. Number and percentage distribution of final medical denials, by age, year of application, and reason for denial, 1992–2024	146

Suspensions, Terminations, and Duration of Eligibility

75. Payment suspensions, by age of recipient and reason for suspension, 2016–2025	151
76. Recipients with payments suspended, by age and reason for suspension, 2016–2025	152
77. Recipients with payments terminated, by age and reason for termination, 2016–2025	153
78. Recipients, by selected characteristics and duration of eligibility, December 2025.	154

SOURCE: Social Security Administration, Finance and Management.

NOTES: Payment totals differ from those in the *Annual Report of the Supplemental Security Income Program* released by Actuarial Services because this tabulation allocates payments to the month due, not the month paid; and includes payments reduced by overpayment recoveries.

From 1995 to 2004, the methodology for the derivation of the "Aged," "Blind," and "Disabled" amounts occasionally created slight discrepancies between the sum of the group totals and the "All recipients" total.

a. Averages are not obtained simply by dividing the total payments by the number of recipients. Averages exclude payments made in the current month for prior-month eligibility, such as back pay for new awards, so that large retroactive payments do not distort the averages.

SOURCE: Social Security Administration, Supplemental Security Record, 100 percent data.

NOTE: ... = not applicable.

- a. Does not include ineligible spouses.
- b. The sum of the entries may be greater than the total because some recipients may receive more than one type of earned or unearned income or both earned and unearned income.
- c. Includes income received as rent, interest, dividends, and royalties.
- d. Does not include income deemed from a spouse or parent.

SOURCES: Social Security Administration, Master Beneficiary Record and Supplemental Security Record, 100 percent data.

NOTES: Social Security counts include disabled workers, disabled widow(er)s, and disabled adult children. SSI counts include recipients of federal SSI, federally administered state supplementation, or both.

-- = not available.

a. Averages are not obtained simply by dividing the total payments by the number of recipients. Averages exclude payments made in the current month for prior-month eligibility, such as back pay for new awards, so that large retroactive payments do not distort the averages.

CONTACT: statistics@ssa.gov.

Recipients of Social Security, SSI, or Both

Children Under Age 18

Table 23.
Recipients and average monthly amount of child's income, by type of income, December 2025

Type of income	Number	Percent	Average monthly amount (dollars)
Total	1,016,027	100.0	...
No earned or unearned income ^a	748,248	73.6	...
With income ^b	267,779	26.4	403
Earned income only	4,176	0.4	577
Unearned income only	261,803	25.8	315
Both earned and unearned income	1,800	0.2	805
With unearned income ^c	263,603	25.9	314
Social Security benefits	55,929	5.5	366
Veterans' benefits	8,945	0.9	108
Income based on need	15,337	1.5	262
Support from absent parents	134,971	13.3	282
Support and maintenance	65,271	6.4	263
Asset income	390	(L)	14
Other	5,724	0.6	399

SOURCE: Social Security Administration, Supplemental Security Record, 100 percent data.

NOTE: ... = not applicable; (L) = less than 0.05 percent.

- a. The percentage of children receiving the full federal benefit rate, as shown in Table 18, is smaller than the percentage of those with no income, as shown here, because of the effect of parental deemed income in the payment computation.
- b. Does not include income deemed from parents in the household.
- c. The sum of the entries may be greater than the total because some recipients may receive more than one type of unearned income.

CONTACT: statistics@ssa.gov.

Table 24.
Recipients, by number of parents in the household, December 2025

Parents in household	Number	Percentage of total
Total	1,016,027	100.0
No parents ^a	121,861	12.0
One parent	724,243	71.3
Two parents	169,923	16.7

SOURCE: Social Security Administration, Supplemental Security Record, 100 percent data.

NOTE: The total of children with one or two parents in the household differs slightly from the number of children living in a parent's household in Table 19. This is because the statistics in Table 19 represent only households in which a parent is the head of the household, whereas the statistics in this table include children living with parents who are not the head of the household.

a. Children with no parents in the household reside independently, with other relatives or nonrelatives, or in institutions or in foster care. Deeming does not apply in these situations.

a. Beginning in 2020, attention deficit/hyperactivity disorder (ADHD) diagnoses have been reallocated from the "childhood and adolescent disorders not elsewhere classified" group to the "other mental disorders" group to reflect the agency's adoption of an ADHD diagnostic code for both children and adults.

Musculoskeletal system and connective tissue	14.8	7.1
Nervous system and sense organs ^b	8.8	8.3
Respiratory system	1.8	0.9
Skin and subcutaneous tissue	0.2	0.2
Other	0.3	0.3
Unknown	1.3	1.1

SOURCE: Social Security Administration, Supplemental Security Record, 100 percent data.

a. Includes section 1619(b) participants.

b. Most disabled recipients classified as blind are included in this category. A few blind recipients with a primary impairment other than diseases of the eye are coded in other categories. Also, a few recipients are classified with diseases of the eye, but their impairment does not meet the definition of blindness.

SOURCE: Social Security Administration, Supplemental Security Record, 100 percent data.

NOTES: When the substantial gainful activity (SGA) level is periodically raised, SSI recipients with earnings below the increased SGA level become eligible for regular SSI benefits rather than the special cash payments under section 1619(a). This can lead to decreases in the number of 1619(a) participants.

. . . = not applicable; -- = not available.

a. Includes blind participants. Of the 118,311 participants in December 2025, 1,721 were blind.

b. Between zero and -0.05 percent.

a. Most disabled recipients classified as blind are included in this category. A few blind recipients with a primary impairment other than diseases of the eye are coded in other categories. Also, a few recipients are classified with diseases of the eye, but their impairment does not meet the definition of blindness.

a. Beginning in 2020, attention deficit/hyperactivity disorder (ADHD) diagnoses have been reallocated from the "childhood and adolescent disorders not elsewhere classified" group to the "other mental disorders" group to reflect the agency's adoption of an ADHD diagnostic code for both children and adults.

OUTCOMES OF APPLICATIONS FOR DISABILITY BENEFITS

Notes

The tables in this section provide statistics on the outcomes of applications for SSI benefits based on blindness or disability. The statistics on applications are derived from the Social Security Administration's (SSA's) Disability Research File. Each year this file is updated with information about applications for disability benefits that is then used to determine the outcome of those applications. The outcome statistics in these tables are reported by year of filing and include decisions made through the conclusion of the administrative appeals process.

Table 69 shows the total number of applications filed in a year, the number that are pending a final decision, the number denied for nonmedical reasons before a medical decision is made (*technical denials*), the outcome of applications for which a medical allowance or denial was made, and award and allowance rates. Applications for which a medical allowance or denial decision was made but which were subsequently denied for nonmedical reasons are shown under the medical decision header as *subsequent denials*. The most common nonmedical reason for denying a claim is excess income.

The allowance rate is calculated by dividing the number of medical allowances (including subsequent technical denials) by the total number of medical decisions made for a 1-year cohort. The award rate is a broader program measure that is calculated as the number of allowances minus subsequent denials divided by total applications (minus pending claims) filed for a given year. For more recent years, the award and allowance rates will change as decisions are made on pending claims.

Tables 70–72 show the allowance rate for SSI only and the SSI portion of *concurrent applications* (which are claims for both Social Security and SSI disability benefits). Each table shows a different level in the administrative decision-making process; that is, initial adjudicative, reconsideration, and hearing level or above.

From October 1999 through March 2020, the proportion of claims awarded at each level of the process was affected by a prototype process that SSA tested in 10 states. Under this test, the reconsideration step of the appeals process was eliminated for applications filed October 1, 1999, or later. Elimination of the reconsideration level in these states resulted in a decrease in the aggregate proportion of claims awarded at this step. SSA began phasing out the prototype process on January 1, 2019, and by March 31, 2020, the reconsideration step had been reinstated in all 10 test states.

This section also includes one table that shows the reason for medical allowance and one that shows the reason for medical denial (Tables 73 and 74). The reasons are derived from the sequential evaluation process used by decision makers. SSA maintains a list of impairments that are considered disabling under its regulations. An applicant can be found to be disabled if he or she—

- has a listed impairment,
- has a severe impairment that is equal to a listed impairment,
- has a severe impairment when medical and vocational factors are considered, or
- had previously established entitlement to a disability benefit.

An applicant can be denied benefits if he or she—

- has an impairment that is not expected to last 12 months,
- has an impairment that is not considered severe,
- is able to perform his or her usual type of work, or
- is able to perform another type of work.

Other denial reasons include insufficient medical evidence, failure to cooperate, failure to follow prescribed treatment, not continuing development of the claim, and returns to substantial work before disability can be established.

SOURCE: Social Security Administration, Disability Research File, 100 percent data.

NOTES: Data are current through June 2025 for the initial and reconsideration levels and through July 2025 for the hearing level or above.

Because a number of applications remain pending for more recent years, the numbers and percentages will change over time. Cases can be pending at the initial or appellate levels and can include either medical or technical issues.

This table includes decisions for SSI-only and concurrent (Social Security and SSI) applications, but excludes Social Security-only applications.

- a. Applications were denied for nonmedical reasons; therefore no decision was made on severity of impairment.
- b. Applications were denied for nonmedical reasons after a decision was made that the applicant did not meet the medical severity criteria for disability benefits.
- c. Applications were denied for nonmedical reasons after a decision was made that the applicant met the medical severity criteria for disability benefits.
- d. Rate determined by dividing awards by all applications minus pending claims for that year.
- e. Rate determined by dividing medical allowances by all medical decisions for that year.
- f. Includes applicants aged 65 or older.

SOURCE: Social Security Administration, Disability Research File, 100 percent data.

NOTES: Data are current through June 2025.

Because a number of applications remain pending for more recent years, the numbers and percentages will change over time.

Applications with a medical decision may be pending a final nonmedical decision or subsequently denied for nonmedical reasons.

a. Rate determined by dividing medical allowances by all medical decisions for that year.

b. Includes applicants aged 65 or older.

SOURCE: Social Security Administration, Disability Research File, 100 percent data.

NOTES: Data are current through June 2025.

Because a number of applications remain pending for more recent years, the numbers and percentages will change over time.

Applications with a medical decision may be pending a final nonmedical decision or be subsequently denied for nonmedical reasons.

From 1999 through 2020, a prototype process in 10 states (representing 20–25 percent of national disability claims) allowed initial denials to be appealed directly to the hearing level without reconsideration.

a. Rate determined by dividing medical allowances by all medical decisions for that year.

b. Includes applicants aged 65 or older.

SOURCE: Social Security Administration, Disability Research File, 100 percent data.

NOTES: Data are current through July 2025.

Because a number of applications remain pending for more recent years, the numbers and percentages will change over time.

Applications with a medical decision may be pending a final nonmedical decision or be subsequently denied for nonmedical reasons.

From 1999 through 2020, a prototype process in 10 states (representing 20–25 percent of national disability claims) allowed initial denials to be appealed directly to the hearing level without reconsideration.

a. Rate determined by dividing medical allowances by all medical decisions for that year.

b. Includes applicants aged 65 or older.

CONTACT: statistics@ssa.gov.

SOURCE: Social Security Administration, Disability Research File, 100 percent data.

NOTES: Data are current through June 2025 for the initial and reconsideration levels and through July 2025 for the hearing level or above.

Because a number of applications remain pending for more recent years, the numbers and percentages will change over time.

Applications with a medical decision may be pending a final nonmedical decision or be subsequently denied for nonmedical reasons.

This table includes decisions for SSI-only and concurrent (Social Security and SSI) applications, but excludes Social Security-only applications.

... = not applicable.

a. Used for any age group.

b. Includes applications for which the disability was previously established and those for which the basis for the determination is not available. For final determinations made in or before August 1996 for applicants under age 18, also includes applications allowed because individual functional assessment showed impairment of comparable severity.

c. Includes applicants aged 65 or older.

SOURCE: Social Security Administration, Disability Research File, 100 percent data.

NOTES: Data are current through June 2025 for the initial and reconsideration levels and through July 2025 for the hearing level or above.

Because a number of applications remain pending for more recent years, the numbers and percentages will change over time.

Applications with a medical decision may be pending a final nonmedical decision or be subsequently denied for nonmedical reasons.

This table includes decisions for SSI-only and concurrent (Social Security and SSI) applications, but excludes Social Security-only applications.

... = not applicable.

a. Used only for applicants under age 18. Category effective for final determinations made August 1996 or later.

b. Used only for applicants aged 18 or older.

c. Applicant provided insufficient evidence, failed to cooperate, failed to follow prescribed treatment, did not want to continue development of the claim, or returned to substantial work before disability could be established. For final determinations made August 1996 or before for applicants under age 18, also includes claims denied because individual functional assessment showed impairment not of comparable severity.

d. Includes applicants aged 65 or older.

SOURCE: Social Security Administration, Supplemental Security Record, 100 percent data.

NOTES: "Duration of eligibility" refers to the number of years elapsed between a person's first month of eligibility and December of the reporting year. The first month of eligibility is the later of (1) the date of application for SSI and (2) the date of attainment of age 65 (for aged applicants) or onset of disability or blindness (for disabled or blind applicants). For persons who have applied for SSI more than once, this definition refers to the most recent application.

... = not applicable; (L) = less than 0.05 percent.

a. Persons who were converted to the SSI program in 1974 from the state Old-Age Assistance, Aid to the Blind, and Aid to the Permanently and Totally Disabled programs.

b. Does not include aged recipients.
