Preface

County-level statistics for Supplemental Security Income (SSI) measure the local impact of the program. This report is a resource for Social Security Administration (SSA) staff in formulating policy and for local service providers and economic planners.

The SSI program is a cash assistance program that provides monthly benefits to low-income aged, blind, or disabled persons in the 50 states, the District of Columbia, and the Northern Mariana Islands. The states and other jurisdictions have the option of supplementing their residents' SSI payments and may choose to have the additional payments administered by the federal government. When a state chooses federal administration, SSA maintains the payment records and issues both the federal payment and the state supplement in a single monthly payment. The statistics presented in this report are for federal and federally administered state payments only; state-administered supplementation payments are not included.

The tables present SSI statistics by eligibility category (aged, blind, and disabled) and age. State statistics on the number of recipients and amount of payments are shown in Tables 1 and 2, respectively. SSI recipients who also receive Social Security (Old-Age, Survivors, and Disability Insurance) benefits are shown in Table 1 and in Table 3, which presents statistics at the county level. For applicable states, Table 4 shows state-level statistics on persons receiving federally administered state supplementation payments by the recipient's living arrangement.

Your suggestions and comments on this report are welcome and should be directed to statistics@ssa.gov. This and other statistical reports about the SSI program are available at <https://www.ssa.gov/policy>.

Notes

The statistics in this report are drawn from the Supplemental Security Record, the principal administrative data file for the Supplemental Security Income program.

State and county payment amounts are rounded to whole dollars. A state payment amount may not equal the sum of the county payment amounts because the state total is derived by adding unrounded county payment amounts.

Certain statistical values are suppressed to avoid disclosure of information about particular individuals. State totals include all county values, regardless of whether individual county values are suppressed.

Maryland, Missouri, Nevada, and Virginia each contain at least one independent city that is not part of a county. For these states, the counties are listed in alphabetical order, followed by the independent city or cities in alphabetical order.

Some tables from the discontinued report *State Assistance Programs for SSI Recipients* have been incorporated into this report beginning with the 2012 edition.

Errata Policy

Any corrections to the statistics in this report will be posted as errata at https://www.ssa.gov/policy/docs/statcomps/ssi_sc/2025/index.html.
