a. Beginning in 1983, includes transfers from the general fund of the Treasury representing contributions that would have been paid on deemed wage credits for military service in 1957–2001, if such credits were considered to be covered wages.

b. Includes payments (1) in 1947–1951 and in 1966 and later, for costs of noncontributory wage credits for military service performed before 1957; (2) in 1971–1982, for costs of deemed wage credits for military service performed after 1956; and (3) in 1968 and later, for costs of benefits to certain uninsured persons who attained age 72 before 1968.

c. Net interest includes net profits or losses on marketable investments. Beginning in 1967, administrative expenses are charged to the trust fund on an estimated basis, with a final adjustment, including interest, made in the following fiscal year. The amounts of these interest adjustments are included in net interest. Beginning in October 1973, the figures shown include relatively small amounts of gifts to the fund. Figures for 1983–1986 reflect payments from a borrowing trust fund to a lending trust fund for interest on amounts owed under the interfund borrowing provisions. During 1983–1990, interest paid from the trust fund to the general fund of the Treasury on advance tax transfers is reflected. For the OASI trust fund, the amount shown for 1985 includes an interest adjustment of \$88 million on unnegotiated checks issued before April 1985. For the OASI and DI trust funds, combined, the amount shown for 1985 includes an interest adjustment of \$102.8 million on unnegotiated checks issued before April 1985.

d. Beginning in 1966, includes payments for vocational rehabilitation services furnished to disabled persons receiving benefits because of their disabilities. Beginning in 1983, amounts are reduced by amount of reimbursement for unnegotiated benefit checks.

e. Amount equals total receipts less total expenditures, plus amounts borrowed or less amounts repaid under interfund borrowing provisions.

f. Less than \$500,000.

- a. Beginning in 1983, includes transfers from the general fund of the Treasury representing contributions that would have been paid on deemed wage credits for military service in 1957–2001, if such credits were considered to be covered wages.
- b. Includes payments (1) in 1966 and later, for costs of noncontributory wage credits for military service performed before 1957; and (2) in 1971–1982, for costs of deemed wage credits for military service performed after 1956.
- c. Net interest includes net profits or losses on marketable investments. Beginning in 1967, administrative expenses are charged to the trust fund on an estimated basis, with a final adjustment, including interest, made in the following fiscal year. The amounts of these interest adjustments are included in net interest. Beginning in July 1974, the figures shown include relatively small amounts of gifts to the fund. Figures for 1983–1986 reflect payments from a borrowing trust fund to a lending trust fund for interest on amounts owed under the interfund borrowing provisions. During 1983–1990, interest paid from the trust fund to the general fund of the Treasury on advance tax transfers is reflected. The amount shown for 1985 includes an interest adjustment of \$14.8 million on unnegotiated checks issued before April 1985.
- d. Beginning in 1966, includes payments for vocational rehabilitation services furnished to disabled persons receiving benefits because of their disabilities. Beginning in 1983, amounts are reduced by amount of reimbursement for unnegotiated benefit checks.
- e. Less than \$500,000.
- f. Amount equals total receipts less total expenditures, less amounts loaned or plus amounts repaid under interfund borrowing provisions.
- g. Reflects \$195 million in transfers from the DI trust fund to the general fund of the Treasury to correct estimated amounts transferred for calendar years 1984 and 1985.

a. Beginning in 1983, includes transfers from the general fund of the Treasury representing contributions that would have been paid on deemed wage credits for military service in 1957–2001, if such credits were considered to be covered wages.

b. Includes payments (1) in 1947–1951 and in 1966 and later, for costs of noncontributory wage credits for military service performed before 1957; (2) in 1971–1982, for costs of deemed wage credits for military service performed after 1956; and (3) in 1968 and later, for costs of benefits to certain uninsured persons who attained age 72 before 1968.

c. Net interest includes net profits or losses on marketable investments. Beginning in 1967, administrative expenses are charged to the trust fund on an estimated basis, with a final adjustment, including interest, made in the following fiscal year. The amounts of these interest adjustments are included in net interest. Beginning in October 1973, the figures shown include relatively small amounts of gifts to the fund. Figures for 1983–1986 reflect payments from a borrowing trust fund to a lending trust fund for interest on amounts owed under the interfund borrowing provisions. During 1983–1990, interest paid from the trust fund to the general fund of the Treasury on advance tax transfers is reflected. For the OASI trust fund, the amount shown for 1985 includes an interest adjustment of \$88 million on unnegotiated checks issued before April 1985. For the OASI and DI trust funds, combined, the amount shown for 1985 includes an interest adjustment of \$102.8 million on unnegotiated checks issued before April 1985.

d. Beginning in 1966, includes payments for vocational rehabilitation services furnished to disabled persons receiving benefits because of their disabilities. Beginning in 1983, amounts are reduced by amount of reimbursement for unnegotiated benefit checks.

e. Amount equals total receipts less total expenditures, plus amounts borrowed or less amounts repaid under interfund borrowing provisions.

f. Less than \$500,000.
