

**Social Security Administration**  
**Product and Service Code (PSC)**  
**Planned Analysis of Fiscal Year 2011 Inventory**

Product and Service Code	Dollars Obligated in FY 2011
B599 Other Special Studies And Analyses	\$24,051,200
S201 Custodial Janitorial Services	\$28,777,685
S206 Guard Services	\$39,955,392

We plan to analyze the three PSCs displayed in the above table. We used the criteria below before making our selections:

- We considered PSCs with larger amounts of dollars obligated.
- We considered generic type of PSCs because these codes can be catch alls for functions not typically contracted.
- We considered management support service contracts as part of the effort to reduce the amount of these types of contracts. However, of the two PSCs under this category in our standard inventory summary, we analyzed one last year and the dollars obligated under the second was minimal.
- We eliminated from consideration PSCs previously analyzed.
